Biochemistry of Sensory

Functions - L. Jaenicke

2012-12-06

This volume contains the
Proceedings of the 25th
Mosbach Colloquium, the
general theme of which is the
Biochemistry of Sensory
Functions. It was intended,
continuing the silver-tradition
of these Colloquia, to provide
the uninitiated biochemist with
an insight into the current
status of a line of research in
Molecular Biology which, more
than many other fields in
Biochemistry, has maintained
its contacts with and respect
for Physiology. The speakers
were asked to attempt to
outline their topic sufficiently
to define the fundamentals and
to build up upon this basis the
more sophisticated details of
their own studies. It is for the

reader to evaluate how well
both organizer and participants
1 have attained this end •
These Proceedings not only
mirror the hubs around which
several groups of scientists
wheel but may also serve as a
source of literature references
and for the advanced student
as an introduction to this
highly up-to-date branch of
Biochemistry, although no
index is provided as the table
of contents is considered

**Desperately Seeking Sex
and Sobriety** - Paul Pisces
2004-02

Colchester Essex England -

Local boy makes bad! Ex Colchester Royal Grammar School pupil Paul Pisces' life slowly descends into a web of computers, alcohol, alcoholism and depression. The brothels of Amsterdam, however, provide some sexual excitement. Eventually following redundancy he takes up sex tourism in the Far East to

relieve the boredom. A brief respite is encountered when he finds a job in San Francisco during the internet boom and bust fiasco but ultimately he returns to his alcoholic ways and books a flight back to Bangkok. From here it is just a short coach ride to Pattaya and a short step to suicide with a shotgun.
