Dogmatic Constitution on Divine Revelation - Pope Paul VI. 1965

This document's purpose is to spell out the Church's understanding of the nature of revelation--the process whereby God communicates with human beings. It touches upon questions about Scripture, tradition, and the teaching authority of the Church. The major concern of the document is to proclaim a Catholic understanding of the Bible as the "word of God." Key elements include: Trinitarian structure, roles of apostles and bishops, and biblical reading in a historical context.

World Development Report 2019 - World Bank 2018-10-31

Work is constantly reshaped by technological progress. New ways of production are adopted, markets expand, and societies evolve. But some changes provoke more attention than others, in part due to the vast uncertainty involved in making predictions about the future. The 2019 World Development Report will study how the nature of work is changing as a result of advances in technology today. Technological progress disrupts existing systems. A new social contract is needed to smooth the transition and

guard against rising inequality. Significant investments in human capital throughout a person's lifecycle are vital to this effort. If workers are to stay competitive against machines they need to train or retool existing skills. A social protection system that includes a minimum basic level of protection for workers and citizens can complement new forms of employment. Improved private sector policies to encourage startup activity and competition can help countries compete in the digital age. Governments also need to ensure that firms pay their fair share of taxes, in part to fund this new social contract. The 2019 World Development Report presents an analysis of these issues based upon the available evidence.

Asylums. Essays on the Social Situation of Mental Patients and Other Inmates - Erving Goffman 1971

The Public Library Service - Fédération internationale des associations de bibliothécaires et des bibliothèques. Section des bibliothèques publiques 2001

The International Federation of Library Associations and Institutions (IFLA) is the leading international body representing the interests of library and information services and their users. It is the global voice of the information profession. The series IFLA Publications deals with many of the means through which libraries, information centres, and information professionals worldwide can formulate their goals, exert their influence as a group, protect their interests, and find solutions to global problems.

Asylums - Erving Goffman 2017-09-08

A total institution is defined by Goffman as a place of residence and work where a large number of like-situated, individuals, cut off from the wider society for an appreciable period of time, together lead an enclosed, formally administered round of life. Prisons serve as a clear example, providing we appreciate that what is prison-like about prisons is found in institutions whose members have broken no laws. This volume deals with total institutions in general and, mental hospitals, in particular. The main focus is, on the world of the inmate, not the

world of the staff. A chief concern is to develop a sociological version of the structure of the self. Each of the essays in this book were intended to focus on the same issue--the inmate's situation in an institutional context. Each chapter approaches the central issue from a different vantage point, each introduction drawing upon a different source in sociology and having little direct relation to the other chapters. This method of presenting material may be irksome, but it allows the reader to pursue the main theme of each paper analytically and comparatively past the point that would be allowable in chapters of an integrated book. If sociological concepts are to be treated with affection, each must be traced back to where it best applies, followed from there wherever it seems to lead, and pressed to disclose the rest of its family.

Jesuit Kaddish - James Bernauer, S.J. 2020-03-30
While much has been written about the Catholic Church and the Holocaust, little has been published about the hostile role of priests, in particular Jesuits, toward Jews and Judaism. Jesuit Kaddish is a long overdue study that examines Jesuit hostility toward Judaism before the Shoah and the development of a new understanding of the Catholic Church's relation to Judaism that culminated with Vatican II's landmark decree *Nostra aetate*. James Bernauer undertakes a self-examination as a member of the Jesuit order and writes this story in the hopes that it will contribute to interreligious reconciliation. Jesuit Kaddish demonstrates the way Jesuit hostility operated, examining Jesuit moral theology's dualistic approach to sexuality and, in the case of Nazi Germany, the articulation of an unholy alliance between a sexualizing and a Judaizing of German culture. Bernauer then identifies an influential group of Jesuits whose thought and action contributed to the developments in Catholic teaching about Judaism that eventually led to the watershed moment of *Nostra aetate*. This book concludes with a proposed statement of repentance from the Jesuits and an appendix presenting the fifteen Jesuits who have been honored as "Righteous Among the Nations" by Israel's Yad Vashem Holocaust Center. Jesuit Kaddish offers a crucial contribution to the fields of Catholicism and Nazism, Catholic-Jewish relations, Jesuit

history, and the history of anti-Semitism in Europe.

Seneca the Elder and His Rediscovered >Historiae ab initio bellorum civilium< - Maria Chiara Scappaticcio 2020-06-08

The refreshed insights into early-imperial Roman historiography this book offers are linked to a recent discovery. In the spring of 2014, the binders of the archive of Robert Marichal were dusted off by the ERC funded project PLATINUM (ERC-StG 2014 n°636983) in response to Tiziano Dorandi's recollections of a series of unpublished notes on Latin texts on papyrus. Among these was an in-progress edition of the Latin rolls from Herculaneum, together with Marichal's intuition that one of them had to be ascribed to a certain 'Annaeus Seneca'. PLATINUM followed the unpublished intuition by Robert Marichal as one path of investigation in its own research and work. Working on the Latin P.Herc. 1067 led to confirm Marichal's intuitions and to go beyond it: P.Herc. 1067 is the only extant direct witness to Seneca the Elder's *Historiae*. Bringing a new and important chapter of Latin literature arise out of a charred papyrus is significant. The present volume is made up of two complementary sections, each of which contains seven contributions. They are in close dialogue with each other, as looking at the same literary matter from several points of view yields undeniable advantages and represents an innovative and fruitful step in Latin literary criticism. These two sections express the two different but interlinked axes along which the contributions were developed. On one side, the focus is on the starting point of the debate, namely the discovery of the papyrus roll transmitting the *Historiae* of Seneca the Elder and how such a discovery can be integrated with prior knowledge about this historiographical work. On the other side, there is a broader view on early-imperial Roman historiography, to which the new perspectives opened by the rediscovery of Seneca the Elder's *Historiae* greatly contribute.

101 Management Models - Marijn Mulders 2019-11-08

Management models: many students will come across them in their studies, yet it is only when actually working with them that the function and benefit of management models are revealed. 101 Management Models gives a comprehensive overview of traditional models as well as innovations in management models. To allow quick access to the models, several indexes are provided, arranged by objective, discipline and author. All models are discussed in a transparent format: the fundamentals of the management model; its application; the result; the pitfalls. This intuitive and accessible textbook will be useful for all students of management - particularly those coming at the topic from another background such as economics or engineering and is supported by a companion website:

Personalism - Emmanuel Mounier 2011-10-25
Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

God's Library - Brent Nongbri 2018-08-21
A provocative book from a highly original scholar, challenging much of what we know about early Christian manuscripts. In this bold and groundbreaking book, Brent Nongbri provides an up-to-date introduction to the major collections of early Christian manuscripts and demonstrates that much of what we thought we knew about these books and fragments is mistaken. While biblical scholars have expended much effort in their study of the texts contained within our earliest Christian manuscripts, there has been a surprising lack of interest in thinking about these books as material objects with individual, unique histories. We have too often ignored the ways that the antiquities market obscures our knowledge of the origins of these manuscripts. Through painstaking archival research and detailed studies of our most important collections of early Christian manuscripts, Nongbri vividly shows how the earliest Christian books are more than just carriers of texts or samples of handwriting. They are three-dimensional archaeological artifacts

with fascinating stories to tell, if we're willing to listen.

Pasolini After Dante - Emanuela Patti
2020-06-30

What role did Dante play in the work of Pier Paolo Pasolini (1922-1975)? His unfinished and fragmented imitation of the *Comedia*, *La Divina Mimesis*, is only one outward sign of what was a sustained dialogue with Dante on representation begun in the early 1950s. During this period, the philologists Gianfranco Contini (1912-1990) and Erich Auerbach (1892-1957) played a crucial role in Pasolini's re-thinking of 'represented reality', suggesting Dante as the best literary, authorial and political model for a generation of postwar Italian writers. This emerged first as 'Dantean realism' in Pasolini's prose and poetry, alter Contini's interpretation of Dante and of his plurilingualism, and then as 'figural realism' in his cinema, after Auerbach's concepts of Dante's *figura* and 'mingling of styles'. Following the evolution of Pasolini's mimetic ideal from these formative influences through to *La Divina Mimesis*, Emanuela Patti explores Pasolini's politics of representation in relation to the 'national-popular', the 'questione della lingua' and the Italian post-war debates on neorealism, while also providing a new interpretation of some of his major literary and cinematic works. Book jacket.

In Cold Blood - Truman Capote 2013-02-19
Selected by the Modern Library as one of the 100 best nonfiction books of all time. From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories*. Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-

spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.

The Cultural Industries - David

Hesmondhalgh 2002-05-24

'This is both a smashing textbook and also an impressive contribution to thinking in a range of subjects. This book should influence the way we construct the undergraduate curriculum as well as rethink the polarisation between political economy and cultural studies' - Frank Webster, City University 'A wonderfully clear, insightful and original synthesis of work on the cultural industries, representing the perspectives of the new generation of researchers' - James Curran, Goldsmiths College, University of London 'The Cultural Industries is an indispensable guide to the main forces at work in the production of media today. This lucid, careful, and sophisticated book orders the entire field, for the US as well as Europe, and at one stroke becomes the state of the art, the standard' - Todd Gitlin, New York University 'David Hesmondhalgh offers us a valuable resource and a timely provocation... [A] very well organised and clearly written introduction to this increasingly important area of study. Students and teachers wanting a comprehensive and accessible guide to what we know and where we might be heading will welcome it with open arms... His book deserves to be required reading on every media and cultural studies course' - Graham Murdock, University of Loughborough 'The arguments within [this book] provide both a timely overview of current scholarship and offer a unique multidisciplinary approach to the topic in a clear and concise manner' - TOPIA: Canadian Journal of Cultural Studies What are the 'cultural industries'? What role do they play in contemporary society? How are they changing? The Cultural Industries combines a political economy approach with the best aspects of cultural studies, sociology, communication studies and social theory to provide an overview of the key debates surrounding cultural production. The book: -

Considers both the entertainment and the information sectors -Combines analysis of the contemporary scene with a long-range historical perspective -Draws on an range of examples from North America, the United Kingdom, Europe and elsewhere. Hesmondhalgh's clearly written, thoroughly argued overview of political-economic, organizational, technological and cultural change represents an important intervention in research on cultural production, but at the same time provides students with an accessible, indispensable introduction to the area.

How to Do Things with Words - John

Langshaw Austin 1975

This work sets out Austin's conclusions in the field to which he directed his main efforts for at least the last ten years of his life. Starting from an exhaustive examination of his already well-known distinction between performative utterances and statements, Austin here finally abandons that distinction, replacing it with a more general theory of 'illocutionary forces' of utterances which has important bearings on a wide variety of philosophical problems.

From Novice to Expert - Patricia Benner 2001

This coherent presentation of clinical judgement, caring practices and collaborative practice provides ideas and images that readers can draw upon in their interactions with others and in their interpretation of what nurses do. It includes many clear, colorful examples and describes the five stages of skill acquisition, the nature of clinical judgement and experiential learning and the seven major domains of nursing practice. The narrative method captures content and contextual issues that are often missed by formal models of nursing knowledge. The book uncovers the knowledge embedded in clinical nursing practice and provides the Dreyfus model of skill acquisition applied to nursing, an interpretive approach to identifying and describing clinical knowledge, nursing functions, effective management, research and clinical practice, career development and education, plus practical applications. For nurses and healthcare professionals.

Latin Palaeography - Bernhard Bischoff

1990-04-12

This work, by the greatest living authority on medieval palaeography, offers the most

comprehensive and up-to-date account in any language of the history of Latin script. It also contains a detailed account of the role of the book in cultural history from antiquity to the Renaissance, which outlines the history of book illumination. Designed as a textbook, it contains a full and updated bibliography. Because the volume sets the development of Latin script in its cultural context, it also provides an unrivalled introduction to the nature of medieval Latin culture. It will be used extensively in the teaching of latin palaeography, and is unlikely to be superseded.

MhGAP Intervention Guide for Mental, Neurological and Substance-Use Disorders in Non-Specialized Health Settings - Version 2.0 - World Health Organization 2016-11-30
The mhGAP Intervention Guide (mhGAP-IG) for Mental, Neurological and Substance-use Disorders for Non-specialist Health Settings, is a technical tool developed by WHO to assist in implementation of mhGAP. The Intervention Guide has been developed through a systematic review of evidence followed by an international consultative and participatory process. The mhGAP-IG presents integrated management of priority conditions using protocols for clinical decision-making. The priority conditions included are: depression, psychosis, bipolar disorders, epilepsy, developmental and behavioural disorders in children and adolescents, dementia, alcohol use disorders, drug use disorders, self-harm/suicide and other significant emotional or medically unexplained complaints. The mhGAP-IG is a model guide and has been developed for use by health-care providers working in non-specialized health-care settings after adaptation for national and local needs.

Bookmarks - A manual for combating hate speech online through human rights education - 2014-05-13

The work of the Council of Europe for democracy is strongly based on education: education in schools, and education as a lifelong learning process of practising democracy, such as in non-formal learning activities. Human rights education and education for democratic

citizenship form an integral part of what we have to secure to make democracy sustainable. Hate speech is one of the most worrying forms of racism and discrimination prevailing across Europe and amplified by the Internet and social media. Hate speech online is the visible tip of the iceberg of intolerance and ethnocentrism. Young people are directly concerned as agents and victims of online abuse of human rights; Europe needs young people to care and look after human rights, the life insurance for democracy. Bookmarks is published to support the No Hate Speech Movement youth campaign of the Council of Europe for human rights online. Bookmarks is useful for educators wanting to address hate speech online from a human rights perspective, both inside and outside the formal education system. The manual is designed for working with learners aged 13 to 18 but the activities can be adapted to other age ranges.
World Report on Violence and Health - World Health Organization 2002

This report is part of WHO's response to the 49th World Health Assembly held in 1996 which adopted a resolution declaring violence a major and growing public health problem across the world. It is aimed largely at researchers and practitioners including health care workers, social workers, educators and law enforcement officials.

General Theory of Law and State - Hans Kelsen 2017-07-05

Widely regarded as the most important legal theorist of the twentieth century, Hans Kelsen is best known for his formulation of the "pure theory of law", - within which the study of international law was his special field of work.

The present volume, "General Theory of Law and State", first published in 1945, allowed Kelsen to adjust his pure theory of law to American circumstances after World War II. It also afforded him the opportunity to present to English-speaking readers his latest ideas on the supremacy of international law. The volume is divided into two parts: the first devoted to law, the second to the state. Together these topics constitute the most systematic and comprehensive exposition of Kelsen's jurisprudence. The volume is not only a compendium of Kelsen's lifework up to that time; it is also an extension of his theories, "to embrace the problems and institutions of English and American law as well as those of the Civil Law countries". Indeed, references to Continental European law are minimal compared with examples, scattered throughout the text, taken from the U.S. Constitution and several American court cases. This is more than a concession to American readers; it signifies that Kelsen's legal theory is truly general in that it

accounts for the Common Law as well as the Civil Law. A systematic treatise on jurisprudence, "General Theory of Law and State" is a substantial reformulation of Kelsen's ideas articulated in several of his previous books, written in German. The juridical principles put forth by the most important legal theorist of the twentieth century remain of great value. This volume will be read by legal scholars, political scientists, and intellectual historians.

Integrated Reporting - Chiara Mio 2016-08-11
This book is a timely addition to the fast-growing international debate on Integrated Reporting, which offers a holistic view of the evolution and practice of Integrated Reporting. The book covers the determinants and consequences of Integrated Reporting, as well as examining some of the most relevant issues (particularly in the context of the United States) in the debate about Integrated Reporting.
