The Saffron Kitchen - Yasmin Crowther 2007-08-28

In a powerful debut novel that moves between the crowded streets of London and the desolate mountains of Iran, Yasmin Crowther paints a stirring portrait of a family shaken by events from decades ago and worlds away. On a rainy day in London the dark secrets and troubled past of Maryam Mazar surface violently, with tragic consequences for her daughter, Sara, and her newly orphaned nephew. Maryam leaves her English husband and family and returns to the remote Iranian village where her story began. In a quest to piece their life back together, Sara follows her mother and finally learns the terrible price Maryam once had to pay for her freedom, and of the love she left behind. Set against the breathtaking beauty of two very different places, this stunning family drama transcends culture and is, at its core, a rich and haunting narrative about mothers and daughters.

Ceremonial Time - John Hanson Mitchell 1997-03-04

“Ceremonial time” occurs when past, present, and future can be perceived simultaneously. Experienced only rarely, usually during ritual dance, this escape from linear time is the vehicle for John Mitchell’s extraordinary writing. In this, his most magical book, he traces the life of a single square mile in New England, from the last ice age through years of human history, including bear shamans, colonists, witches, local farmers, and encroaching industrial “parks.”

The Most Dangerous Game - Richard Connell 2020-04-21

From one of America’s most popular short story writers and an Academy Award nominee: the O. Henry Award-winning tale that inspired the movie *The Hunt*. A subject of mysterious rumors and superstition, the deserted Caribbean Island was shrouded in an air of peril. To Sanger

Rainsford, who fell off a yacht and washed up on its shores, the abandoned isle was a welcome paradise. But unknown to the big-game hunter, a predator lurked in its lush jungles—one more dangerous than any he had ever encountered: a human. First published in 1924, this suspenseful tale “has inspired serial killers, films and stirred controversy in schools. A century on, the story continues to thrill” (The Telegraph). “[A] tense, relentless story of man-against-man adventure, in which the hunter Sanger Rainsford learns, at the hands of General Zaroff, what it means to be hunted.” —Criterion

The Image of the City - Kevin Lynch 1964-06-15

The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

Grinnell College in the Nineteenth Century - Joseph Frazier Wall 1997

In this most engaging history of one of America's premier liberal arts colleges, Wall captures far more than the formation and growth of Grinnell College, Iowa. It is also a story about organized religion and religious values in nineteenth-century America, about westward expansion across the Mississippi River, and about town building on the prairies. Strong personalities drive the early college: Leonard and Sarah Parker, George F. Magoun, George Herron, Carrie Rand, Martha Foote Crowe, and above all, George Augustus Gates. Wall's quotations from personal letters and college minutes illuminate their backgrounds, motivations, and aspirations. The book was originally commissioned by President George Drake as a sesquicentennial history of the college. This volume contains the story Wall had completed when he died. Mrs Bea Wall finished her husband's last chapter.

Representing Yourself in Federal Court - United States District Court 2017-08-04

This Handbook is designed to help people dealing with civil lawsuits in

federal court without legal representation. Proceeding without a lawyer is called proceeding "pro se1," a Latin phrase meaning "for oneself," or sometimes "in propria persona," meaning "in his or her own person." Representing yourself in a lawsuit can be complicated, time consuming, and costly. Failing to follow court procedures can mean losing your case. For these reasons, you are urged to work with a lawyer if possible. Chapter 2 gives suggestions on finding a lawyer. Do not rely entirely on this Handbook. This Handbook provides a summary of civil lawsuit procedures, but it may not cover all procedures that may apply in your case. It also does not teach you about the laws that will control your case. Make sure you read the applicable federal and local court rules and do your own research at a law library or online to understand your case. The United States District Court for the Northern District of California has Clerk's Offices in the San Francisco, San Jose and Oakland courthouses. Clerk's Office staff can answer general questions, but they cannot give you any legal advice. For example, they cannot help you decide what to do in your lawsuit, tell you what the law means, or even advise you when documents are due. There are Legal Help Centers in the San Francisco, Oakland and San Jose courthouses where you can get free help with your lawsuit from an attorney who can help you prepare documents and give limited legal advice. This attorney will not be your lawyer and you will still be representing yourself. See Chapter 2 for more details.

Old Lyme, Lyme, and Hadlyme - Kathryn Burton 2003-08-01
Where the Connecticut River empties into Long Island Sound, a community that eventually became known as Lyme was settled in 1639. The community ran up the eastern riverbank to what is now East Haddam, along the Sound to Niantic, and into parts of Salem. In time, Lyme was divided into small towns and villages: Old Lyme, Lyme, Hadlyme, Hamburg, Sterling City, South Lyme, and the coastal communities. Old Lyme, Lyme, and Hadlyme is a compelling tribute to an area that is extraordinary in many ways: for its people, many of whom were attorneys, judges, legislators, and governors; for its commerce, which brought ships from up and down the East Coast and as far away as the West Indies; and for its beautiful homes, some of which survive today thanks to a strong preservation ethic.
