Beethoven Duemila - Aldo Ceccato 2021-04-02

Se i grandi compositori del passato avessero avuto a disposizione gli strumenti di oggi, con estensioni ben più ampie, avrebbero potuto comporre in libertà secondo ogni loro necessità espressiva. Avrebbero così potuto completare una linea melodica senza dover scendere di un'ottava o doverla affidare ad altri strumenti che disponevano di una tessitura più estesa. Questo libro (in quattro lingue: inglese, spagnolo e tedesco oltre italiano) presenta le "attualizzazioni" delle Nove Sinfonie e di tutte le composizioni sinfoniche e corali di Ludwig van Beethoven, che il Maestro Aldo Ceccato ha completato sulla scia di quanto intrapreso da Wagner e Mahler.

The Cosmic Time of Empire - Adam Barrows 2011

Combining original historical research with literary analysis, Adam Barrows takes a provocative look at the creation of world standard time in 1884 and rethinks the significance of this remarkable moment in modernism for both the processes of imperialism and for modern literature. As representatives from twenty-four nations argued over adopting the Prime Meridian, and thereby measuring time in relation to Greenwich, England, writers began experimenting with new ways of representing human temporality. Barrows finds this experimentation in works as varied as Victorian adventure novels, high modernist texts, and South Asian novels—including the work of James Joyce, Virginia Woolf, H. Rider Haggard, Bram Stoker, Rudyard Kipling, and Joseph Conrad. Demonstrating the investment of modernist writing in the problems of geopolitics and in the public discourse of time, Barrows argues that it is possible, and productive, to rethink the politics of modernism through the politics of time.

At last a cure is found and the mild-mannered vicar can resume normal service. Or at least as normal as is possible for a man who must walk backwards to be sure of talking forwards! A highly comic tale in the best Dahl tradition of craziness, written for the benefit of the Dyslexia Institute.

[Linguistic Criticism](#) - Roger Fowler 1986

A particularly fruitful development in literary studies has been the application of ideas drawn from linguistics. Precise analytical methods help the practical criticism of texts, while at the same time the theory of language has illuminated literary theory. Linguistic Criticism is an accessible introduction to this often confusing subject. Fowler sets out clearly and simply a variety of analytical techniques whose application he demonstrates in discussions of a wide range of texts drawn from fiction, poetry, and drama. He concentrates on structures that relate literature to ordinary language, stressing the importance of the reader's everyday language skills. This second edition has clarified and expanded sections on the role of the reader in literary criticism and includes more twentieth-century texts and examples.

The Cylinder - Helmut Müller-Sievers 2012-03-28

The Cylinder investigates the surprising proliferation of cylindrical objects in the nineteenth century, such as steam engines, phonographs, panoramas, rotary printing presses, silos, safety locks, and many more. Examining this phenomenon through the lens of kinematics, the science of forcing motion, Helmut Müller-Sievers provides a new view of the history of mechanics and of the culture of the industrial revolution,

including its literature, that focuses on the metaphysics and aesthetics of motion. Müller-Sievers explores how nineteenth-century prose falls in with the specific rhythm of cylindrical machinery, re-imagines the curvature of cylindrical spaces, and conjoins narrative progress and reflection in a single stylistic motion. Illuminating the intersection of engineering, culture, and literature, he argues for a concept of culture that includes an epoch's relation to the motion of its machines.

Individualism Versus Collectivism - Marlies Galenkamp 1998

Moses and Multiculturalism - Barbara Johnson 2010-02-25

Countering impressions of Moses reinforced by Sigmund Freud in his epoch-making *Moses and Monotheism*, this concise, engaging work begins with the perception that the story of Moses is at once the most nationalist and the most multicultural of all foundation narratives. Weaving together various texts—biblical passages, philosophy, poems, novels, opera, and movies—Barbara Johnson explores how the story of Moses has been appropriated, reimagined, and transmitted across cultures and historical moments. But she finds that already in the Bible, the story of Moses is a multicultural story, the story of someone who functions well in a world to which he, unbeknownst to the casual observer, does not belong. Using the Moses story as a lens through which to view questions at the heart of contemporary literary, philosophical, and ethical debates, Johnson shows how, through a close analysis of this figure's recurrence through time, we might understand something of the paradoxes, if not the impasses of contemporary multiculturalism.

English Heart, Hindi Heartland - Rashmi Sadana 2012-02-02

English Heart, Hindi Heartland examines Delhi's postcolonial literary world—its institutions, prizes, publishers, writers, and translators, and the cultural geographies of key neighborhoods—in light of colonial histories and the globalization of English. Rashmi Sadana places internationally recognized authors such as Salman Rushdie, Anita Desai, Vikram Seth, and Aravind Adiga in the context of debates within India about the politics of language and alongside other writers, including K. Satchidanandan, Shashi Deshpande, and Geetanjali Shree. Sadana undertakes an ethnographic study of literary culture that probes the connections between place, language, and text in order to show what language comes to stand for in people's lives. In so doing, she unmasks a social discourse rife with questions of authenticity and cultural politics of inclusion and exclusion. *English Heart, Hindi Heartland* illustrates how the notion of what is considered to be culturally and linguistically authentic not only obscures larger questions relating to caste, religious, and gender identities, but that the authenticity discourse itself is continually in flux. In order to mediate and extract cultural capital from India's complex linguistic hierarchies, literary practitioners strategically deploy a fluid set of cultural and political distinctions that Sadana calls "literary nationality." Sadana argues that English, and the way it is positioned among the other Indian languages, does not represent a fixed pole, but rather serves to change political and literary alliances among classes and castes, often in surprising ways.

The Cultural Return - Susan Hegeman 2012-01-09

This insightful book tracks the concept of culture across a range of scholarly disciplines and much of the twentieth and early twenty-first centuries—years that saw the emergence of new fields and subfields (cultural studies, the new cultural history, literary new historicism, as well as ethnic and minority studies) and came to be called "the cultural turn." Since the 1990s, however, the idea of culture has fallen out of scholarly favor. Susan Hegeman engages with a diversity of disciplines, including anthropology, literary studies, sociology, philosophy, psychology, and political science, to historicize the rise and fall of the cultural turn and to propose ways that culture may still be a vital concept in the global present.

Wings for Our Courage - Stephanie H Jed 2011-06

On January 6, 1537, Lorenzino de' Medici murdered Alessandro de' Medici, the duke of Florence. This episode is significant in literature and drama, in Florentine history, and in the history of republican thought, because Lorenzino, a classical scholar, fashioned himself after Brutus as a republican tyrant-slayer. *Wings for Our Courage* offers an epistemological critique of this republican politics, its invisible oppressions, and its power by reorganizing the meaning of Lorenzino's assassination around issues of gender, the body, and political subjectivity. Stephanie H. Jed brings into brilliant conversation figures including the Venetian nun and political theorist Archangela Tarabotti,

the French feminist writer Hortense Allart, and others in a study that closely examines the material bases—manuscripts, letters, books, archives, and bodies—of writing as generators of social relations that organize and conserve knowledge in particular political arrangements. In her highly original study *Jed* reorganizes republicanism in history, providing a new theoretical framework for understanding the work of the scholar and the social structures of archives, libraries, and erudition in which she is inscribed.

The Infamous Rosalie - Évelyne Trouillot 2020-03-09

Lisette, a Saint-Domingue-born Creole slave and daughter of an African-born bossale, has inherited not only the condition of slavery but the traumatic memory of the Middle Passage as well. The stories told to her by her grandmother and godmother, including the horrific voyage aboard the infamous slave ship *Rosalie*, have become part of her own story, the one she tells in this haunting novel by the acclaimed Haitian writer Évelyne Trouillot. Inspired by the colonial tale of an African midwife who kept a cord of some seventy knots, each one marking a child she had killed at birth, the novel transports us back to Saint-Domingue, before it became Haiti. The year is 1750, and a rash of poisonings is sowing fear among the plantation masters, already unsettled by the unrest caused by Makandal, the legendary Maroon leader. Through this tumultuous time, Lisette struggles to maintain her dignity and to imagine a future for her unborn child. In telling Lisette's story, Trouillot gives the revolution that will soon rock the island a human face and at long last sheds light on the invisible women and men of Haitian history. The original French edition of *Rosalie l'infâme* received the Prix Soroptimist de la romancière

francophone, honoring a novel written by a woman from a French-speaking country which showcases the cultural and literary diversity of the French-speaking world.

Poetry in Pieces - Michelle Clayton 2011-01-10

Set against the cultural and political backdrop of interwar Europe and the Americas, *Poetry in Pieces* is the first major study of the Peruvian poet César Vallejo (1892–1938) to appear in English in more than thirty years. Vallejo lived and wrote in two distinct settings—Peru and Paris—which were continually crisscrossed by new developments in aesthetics, politics, and practices of everyday life; his poetry and prose therefore need to be read in connection with modernity in all its forms and spaces. Michelle Clayton combines close readings of Vallejo's writings with cultural, historical, and theoretical analysis, connecting Vallejo—and Latin American poetry—to the broader panorama of international modernism and the avant-garde, and to writers and artists such as Rainer Maria Rilke, James Joyce, Georges Bataille, and Charlie Chaplin. *Poetry in Pieces* sheds new light on one of the key figures in twentieth-century Latin American literature, while exploring ways of rethinking the parameters of international lyric modernity.
