[The Carnivore Diet](#) - Shawn Baker 2019-11-19

Shawn Baker's Carnivore Diet is a revolutionary, paradigm-breaking nutritional strategy that takes contemporary dietary theory and dumps it on its head. It breaks just about all the "rules" and delivers outstanding results. At its heart is a focus on simplicity rather than complexity, subtraction rather than addition, making this an incredibly effective diet that is also easy to follow. The Carnivore Diet reviews some of the supporting evolutionary, historical, and nutritional science that gives us clues as to why so many people are having great success with this meat-focused way of eating. It highlights dramatic real-world transformations experienced by people of all types. Common disease conditions that are often thought to be lifelong and progressive are often reversed on this diet, and in this book, Baker discusses some of the theory behind that phenomenon as well. It outlines a comprehensive strategy for incorporating the Carnivore Diet as a tool or a lifelong eating style, and Baker offers a thorough discussion of the most common misconceptions about this diet and the problems people have when transitioning to it.

The popularity of bodybuilding is at an all-time high, and the sport is continuing to grow. But seasoned competitors and beginners often have questions about how to look their best on show day. Written by expert bodybuilding coaches Peter Fitschen and Cliff Wilson, *Bodybuilding: The Complete Contest Preparation Handbook* will guide you through every step of the process to select a competition, prepare for the contest, and make the transition to the off-season. With no other book like it on the market, *Bodybuilding* offers you scientifically supported and experience-based guidelines to help you have your best show ever. *Bodybuilding* takes the guesswork out of preparing for a contest and answers common questions such as these: How do I choose the competition and division that are right for me? What mandatory poses do I need to learn for my competition? What is the best workout to do during contest prep? What should I do if I start to spill over during peak week? How long is too long to maintain stage-lean levels of body fat? The authors have created an easily accessible handbook that guides you step by step. The chapters begin with a background of the sport, followed by a discussion of the competitive division options for both men and women. The next chapters will help you through the process of obtaining a stage-ready physique with an evidence-based approach that combines scientific literature with practical experience. These chapters discuss important topics such as nutrition, training, and preparation timing. The next chapters address posing, peak week, tanning, and a number of other topics that will help you bring your most polished physique to the stage. Feminist Figure Girl - Lianne McTavish 2015-01-08

Analyzes the author's transformation from academic to figure competitor. *Feminist Figure Girl* chronicles the transformation of art history professor Lianne McTavish, from a university professor into an extraordinarily tanned and crystal-encrusted bikini-wearing "figure girl." Figure competitions seek a softer appearance than traditional forms of bodybuilding but still require rigorous weightlifting, an extreme protein diet, and many hours of posing in high heels. While training for a figure show, McTavish combined autoethnographic methods, participant observation, and feminist theory to find new ways of thinking about physique culture and the female body. The author, who specializes in critical visual culture and the history of the body, explores such contemporary issues as body image, fat studies, identity politics, and "postfeminism," while rethinking fitness culture, diet regimes, feminist politics, reproductive activism, performance art, and the social function of photography. Written in a lively personal style reminiscent of McTavish's popular blog, she clearly explains the complex ideas stemming from the theoretical work of such writers as Judith Butler, Simone de Beauvoir, Michel Foucault, Iris Marion Young, Edmund Husserl, and Maurice Merleau-Ponty. The book also includes many photos documenting McTavish's physical transformation. Lianne McTavish is Professor of the History of Art, Design, and Visual Culture at the University of Alberta.
