But with the explosion of the Internet, a new generation of savvy, independent artists is connecting with buyers and making a substantial living doing what they love. How to Sell Your Art Online shows any artist how to make a successful living from their work. Cory Huff dispels the myth of the starving artist and provides the effective business strategies necessary to make artistic creations pay. He helps individual artists find their niche; outlines the elements essential for an effective website; and provides invaluable advice on e-mail marketing, blogging, social media marketing, and paid advertising—explaining how to tie all these online activities into offline success. Most importantly, he shares the secret to overcoming the biggest challenge artists face when self-marketing: learning how to tell their unique stories. Every artist has a reason for making art, but can't always find the right way to express it. Huff provides exercises artists can use to clarify the intellectual and emotional process behind their art, and teaches them how turn that knowledge into stories they can tell online and in person—and expand their reach through blogs and social media to build their art business. Drawing from the stories of successful artists, thoroughly describing how art is sold today, and providing tips on how to build connections personally and electronically, How to Sell Your Art Online illustrates the countless ways artists can take control of their creative careers—and sell their work without selling out.
