Minority Marketing: Issues and Prospects -

Robert L. King 2015-05-08

This volume includes the full proceedings from the 1987 Minority Marketing Congress held in Greensboro, North Carolina under the theme Minority Marketing: Issues and Prospects. It provides a variety of quality research in the field of minority marketing in order to assimilate and enhance knowledge of marketing practices for minority enterprises. It includes papers on various topics in minority marketing including advertising, promotion and consumer behaviour. Founded in 1971, the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory, research, and practice. Among its services to members and the community at large, the Academy offers conferences, congresses and symposia that attract delegates from around the world. Presentations from these events are published in this Proceedings series, which offers a comprehensive archive of volumes reflecting the evolution of the field. Volumes deliver cutting-edge research and insights, complimenting the Academy's flagship journals, the Journal of the Academy of Marketing Science (JAMS) and AMS Review. Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science. Service Science - John Maleyeff 2020-08-03
To remain relevant in today's world, practitioners should presume that they have two jobs: first, to do their work effectively so that they provide value to the organization; second, to improve how the work is done so that their organization remains competitive. This book offers clear guidance to excel at this ubiquitous second job. Informed by an appreciation that most personnel that work in any firm, even firms that are manufacturing-oriented, routinely provide services as a key element of their jobs, this book explains how to provide and improve internal customer service, regardless of industry or role. It illustrates the common features, or service process "DNA," while providing a diverse set of examples to enhance understanding. Written by a pioneer in the development of principles and methodologies that address

services in a structured and distinctive manner, this book stresses that service processes are distinctly different from manufacturing processes. Rigorous and practical, this book will appeal to students and professionals alike, in business, hospitality, industrial management, public health, and other fields. Online resources include Excel files that act as templates to help with quantitative analysis routines.
