Gathering the Light - V.

Walter Odajnyk 2011-12

Originally published by Shambhala in 1993, Gathering the Light is a significant contribution to Jungian psychology and to research concerning the relationship between psychological and spiritual development.

Gathering the Light remains a groundbreaking work that integrates Jungian psychology, alchemy, and the practice of meditation. It is one of very few, if not the only Jungian book that demonstrates that the alchemical opus is not only an analogy of the individuation process, but also a depiction of various experiential stages encountered in the course of meditation. Gathering the Light compares Western and Eastern images of the goal of alchemy and of meditation practice; it offers a psychological interpretation of the Zen Ox Herding pictures; it argues that in essence both psychological and spiritual development

consists of the withdrawal of projections; and the appendix offers a critique of Wilber's mistaken view of Jung's conception of archetypes and provides a critical review of Thomas Cleary's translation of *The Secret of the Golden Flower*.

These facets are shown to produce a vibrant Deadhead experience, resulting in community influences still morphing in new directions 45 years after the band's initial impact.

Man - Manly P. Hall

2018-12-02

Man, according to Manly P. Hall, is at the center of the Mystery School tradition. We are the living reflection of the Creator, and all traditions in Western Esotericism are based upon it. "Our purpose has been

to bring together not all but only a small part of what may be termed the lore of the human body. For the most part, the origins of the various doctrines are set forth in the text. Some have come from Eastern scriptures, some from the Hermetic fragments. We have called upon a wide diversity of old authorities and, strangely enough, there is an evident consistency among them conspicuously lacking with the moderns. The sages, furthermore, approached their task with veneration; an underlying realization of the dignity of life adds charm to every conclusion. They viewed the human body not as the man but as the house of the man. Antiquity was convinced of immortality and among the wise the science of the soul occupied first place. Much work remains to be done in the field of occult anatomy. There are many old writings yet to be consulted, libraries unavailable to the public to be explored, manuscripts to be deciphered. The Codices of Central America must be made to give up their

secrets. The temples libraries of Asia are filled with priceless documents, for in India are preserved records invaluable to science. Our effort, then, is primarily to stimulate interest and to focus the attention of the learned upon this engrossing theme. We are subject to errors which time alone can correct, but the principle of the correspondence existing between man and the world is established upon incontestable grounds.”—Manly P. Hall *Meditation Symbols in Eastern & Western Mysticism* - Manly Palmer Hall 1988

The fruition of a lifetime of study and interpretation of Eastern and Western mystical symbolism, this classic text explores meditation symbols throughout history in thirteen profusely illustrated chapters highlighting such topics as: -- Meditation Symbols -- Meditation, The Experience of Reality -- The Mandala as a Symbol of the Universe -- The Mandala as an Internal Mystery -- The Lotus Sutra and Its Mandalas -- Mandalas in
