Zalmoxis - Lucian Blaga 2020-11-18

Lucian Blaga (1895-1961) is judged by many to be Romania's most original philosopher and greatest poet of the twentieth century. While scholars with access to his works in Romanian are well-aware of their importance, his work has remained, up to now, little known in the English-speaking world. The book represents one of the first efforts to make Blaga's work accessible to an international audience. Zalmoxis is Blaga's first play and one of his most important literary works. It underlines much of his philosophy and also reflects his poetry. Blaga's attachment to Expressionist ideals is discernible in his treatment of the characters primarily as vehicles of ideas and his preference for primitive nature over the cultured metropolis. This book includes an introduction by Keith Hitchins of the University of Illinois, one of the leading historians of Romania in the United States and a scholar intimately acquainted with Blaga's life and work. In it, he discusses the life of Lucian Blaga, and the importance of his literary and philosophical work. The translation is by Doris Plantus-Runey from Wayne State University in the United States.

A Brief Illustrated History of Romanians - Neagu Djuvara 2016-10-28

This is not an ordinary history book. As readers will realise quite early on, Neagu Djuvara has the audacity to tackle some of the most delicate and controversial issues in Romanian history under the guise of light storytelling. With the addition of illustrations, the book becomes better and easier to understand: we are offered the chance to see how ancient artefacts discovered by archaeologists actually look like, or catch a glimpse of the world of barbarians and medieval warriors depicted in wonderful illuminated manuscripts. As we get nearer to the modern age, the imagery becomes even richer and we get to know Romania's princes and monarchs, their allies and their enemies, the politicians - good and bad - their triumphs, tribulations or even tragedies; and sometimes even the common people going about their daily lives. The photographic discourse focuses on the most important documents, even if their condition is not optimal. You will also find images of pottery, jewellery and weaponry, some of them from unexpected sources, often unknown to the public, accompanied by detailed captions that complement the information provided in the

text itself. Together, the story and illustrations intertwine to form a new, enhanced historical account - and hopefully, one not lacking in originality.

Recent Advances in Natural Language Processing - Ruslan Mitkov 1997-01-01

This volume is based on contributions from the First International Conference on Recent Advances in Natural Language Processing (RANLP'95) held in Tzigov Chark, Bulgaria, 14-16 September 1995. This conference was one of the most important and competitively reviewed conferences in Natural Language Processing (NLP) for 1995 with submissions from more than 30 countries. Of the 48 papers presented at RANLP'95, the best (revised) papers have been selected for this book, in the hope that they reflect the most significant and promising trends (and latest successful results) in NLP. The book is organised thematically and the contributions are grouped according to the traditional topics found in NLP: morphology, syntax, grammars, parsing, semantics, discourse, grammars, generation, machine translation, corpus processing and multimedia. To help the reader find his/her way, the authors have prepared an extensive index which contains major terms used in NLP; an index of authors which lists the names of the authors and the page numbers of their paper(s); a list of figures; and a list of tables. This book will be of interest to researchers, lecturers and graduate students interested in Natural Language Processing and more specifically to those who work in Computational Linguistics, Corpus Linguistics and Machine Translation.

Genesis Revisited - Zecharia Sitchin 2002-03-01

• Was Adam the first test-tube baby? • Did nuclear fission destroy Sodom and Gomorrah? • How were the ancients able to accurately describe details about our solar system that are only now being revealed by deep space probes? The awesome answers are all here, in this important companion volume to The Earth Chronicles series. Having presented evidence of an additional planet as well as voluminous information about the other planets in our solar system, Zecharia Sitchin now shows how the discoveries of modern astrophysics, astronomy, and genetics exactly parallel what has already been revealed in ancient texts regarding the "mysteries" of alchemy and the creation of life. Genesis Revisited is a mind-boggling revelation sure to overturn current theories about the origins of humankind and the solar system.

John and Mary Margaret is an insider's look into the White-privilege bubble of a young girl growing up in Jackson, Mississippi, and participating in sorority life on the Ole Miss campus in the late 1960s. But it's also a candid portrayal of a young Black boy from Memphis who follows his dream to study law at the predominately White university. What happens when their shared love for literature blossoms into an ill-fated romance? Set squarely in the center of decades of historical events in Mississippi and Memphis, here their story brings those events to life.

Empire of the Black Sea - Duane W. Roller 2020

What is commonly called the kingdom of Pontos flourished for over two hundred years in the coastal regions of the Black Sea. At its peak in the early first century BC, it included much of the southern, eastern, and northern littoral, becoming one of the most important Hellenistic dynasties not founded by a successor of Alexander the Great. It also posed one of the greatest challenges to Roman imperial expansion in the east. Not until 63 BC, after many violent clashes, was Rome able to subjugate the kingdom and its last charismatic ruler Mithridates VI. This book provides a general history of this important kingdom from its mythic origins in Greek literature (e.g., Jason and the Golden Fleece) to its entanglements with the late republic of Rome. Roller discusses its rulers as well as the Romans and others who interacted with them and opposed them. He addresses social and cultural issues, including the attitude of the traditional Greek states and other eastern kingdoms, economic issues such as depopulation and land exhaustion, and--especially in the latter years of the dynasty--the changing and indeed endless internal problems in Rome itself that would come to drive or even overpower events in the field. Previous histories of this era are varied in their focus and quality. Needless to say, much of the interest has been directed to the final and most famous member of the dynasty, Mithridates VI (120-63 BC); this book explores the entire kingdom and its rich history. Empire of the Black Sea is an engaging and accessible history of a forgotten reign.

Attitude and Stance in Discourse - Liliana Ionescu-Ruxăndoiu 2022-01-27

Stancetaking is inherent in verbal communication, as it is connected with the expression of subjectivity and the construction of intersubjectivity in discourse. This book presents theoretical findings in this field and their practical implications, exploring the variations in time and space of meaning negotiation processes in a large variety of communicative forms, including political and judicial discourse, journalism, fiction, private letters, informal conversations, and school debates. Some articles refer to events with a strong impact on social and political life, such as the COVID-19 pandemic or Ceaușescu's trial. The volume's approach is mainly pragma-rhetoric and interactional, but also interdisciplinary, promoting dialogue between stance researchers in different fields. There is a specific focus on possible applications of some key findings of stance research in improving inter-ethnic communication and the teaching of foreign languages, as well as students' communicative abilities.

Fragmente dintr-un carnet gasit - Mihail Sebastian 2017-07-29

"Fragmente dintr-un carnet gasit" a marcat debutul scriitoricesc al lui Mihail Sebastian, o carte scrisa la 25 de ani, neatinsa de dramele din paginile Jurnalului. Fragment: "Intr-o seară de noiembrie (In Imprejurări pe care ar fi prea lung să le povestesc aici) am găsit la Paris, pe podul Mirabeau, un carnet cu coperti negre, lucioase, de mușama, ca acelea In care obișnuiesc băcanii să-și țină socotelile. Erau exact 126 de pagini - hArtie comercială - scrise mărunț, regulat, fără ștersături. Lectură curioasă, obositoare pe alocuri, pasagii obscure, notații ce Imi erau străine, ba chiar absolut opuse. L-am căutat pe proprietarul aceluia caiet. L-am căutat cu suficientă stăruință, pentru ca scrupulele mele să fie Impăcate, dar cu mijloace destul de vagi, pentru ca totuși caietul să-mi rămAnă. Public aici cAteva fragmente. StAngăcia unor expresii, dacă există, e datorată In Intregime traducerii mele. Manuscrisul e In franțuzește. Am dat pe alocuri, unde traducerea mi s-a părut cu totul insuficientă, In paranteze, expresia exactă a textului. Țin de altfel, la dispoziția curioșilor, originalul."
