Paper Cuts - Lance Perticone 2006
Mario Spinelli is a Catholic, Italian-American young man from New York with a bright future in the paper industry. When the small paper mill where he is carving out his career is bought and then closed by industry giant Global Printing and Writing, he is forced to transfer to a huge, state-of-the-art mill in rural Arkansas to keep his career on track. His New York attitude quickly brings him trouble with the locals. He can't wait to escape his misery and return north until he meets and falls in love with a beautiful hometown engineer, Alisha Ann Reynolds. Mario joins in the antics of his coworkers, for whom bass fishing is the supreme entertainment. Through personal heroics and tragedy, he must rely on his steadfast faith in his struggle to win Alisha Ann's heart and acceptance with his peers.

Playbooks and Checkbooks - Stefan Szymanski
2020-05-26

"What economic rules govern sports? How does the sports business differ from other businesses? [This book examines] the fundamental economic relationships shaping modern sports. Focusing on the ways that the sports business does and does not overlap with economics, the book uncovers the core paradox at the heart of the sports industry. Unlike other businesses, the sports industry would not survive if competitors obliterated each other to extinction, financially

or otherwise--without rivals there is nothing to sell. Playbooks and Checkbooks examines how this unique economic truth plays out in the sports world, both on and off the field"--

Translation, Linguistics, Culture - Nigel Armstrong 2005-01-01

This book takes a linguistic approach to translation issues, looking first at the structural view of language that explains the difficulty of translation and at theories of cultural non-equivalence. A subsequent chapter on text types, readership and the translator's role completes the theoretical framework. The linguistic levels of analysis are then discussed in ascending order, from morpheme up to sentence, while a summarising chapter considers various translation types and strategies, again considered in relation to text type, author and reader.

French Colonial Soldiers in German Captivity during World War II - Raffael Scheck 2014-12-15

This book discusses the experience of French colonial prisoners of war captured by Nazi Germany during World War II. It illustrates that the colonial prisoners' contradictory experiences with French authorities, French civilians, and German guards led to clashes with a colonial administration eager to return to a discriminatory routine following the war.

Winfield and Jolowicz on Tort - W. V. H. Rogers 2006

The authors focus on English law but cover significant developments in Commonwealth countries, and, where appropriate, European systems of tort law. They offer an understanding of the purpose of tort law and also detail the rules and principles that make up tort law and explain how the law has developed.

The Keeneland Association Library - Amelia King Buckley 2014-07-15

A research center for Thoroughbred racing, breeding, and related subjects, the Keeneland Association Library is located at Keeneland Race Course near Lexington, Kentucky. Amelia King Buckley, who became librarian in 1953, has compiled an alphabetical author listing of the titles in this unique collection as of June 1, 1958. Begun in 1939 with a gift of 2,000 volumes from William Arnold Hanger, the library has grown with the addition of other gifts and purchases, and now comprises one of the finest collections in its field. The published catalog includes more than 900 monograph titles, more than 100 serial titles, selected sales catalogs, private studbooks, bound pamphlets, and a small amount of manuscript material. The volume is illustrated with photographs from the library's remarkable collection of 15,000 negatives taken by the late Charles Christian Cook, one of the first American photographers to specialize in racing scenes.

An Introduction to the Comparative Study of Private Law - James Gordley 2020-12-31

This collection of readings places side by side the principal doctrines of contracts, torts, unjust enrichment, and property in the cases of the United States, England, France, Germany and China. It presents code provisions, cases, and other legal materials that describe the law in force, and places each doctrine in its historical

context to enable an understanding of the development of law as an ongoing process, in which the resolution of current issues depends upon how past issues were resolved. It both provides a road map of the private law of these jurisdictions, and illustrates how private law has been shaped by history, by the effort to solve common problems, and by differences in culture. This new edition reflects changes in the law, and includes the addition of Chinese Law as a comparative study.

Promise at Dawn - Romain Gary 2017-10-31

A classic of modern French literature, the thrilling real-life story of the military hero, ambassador, ladies man, writer, and loving son I grew up longing for the day when I could tear down the veil of darkness and absurdity concealing the true face of the universe and discover at last a smile of kindness and wisdom; I grew up in the certitude that one day I should help my fellow men to wrest the world from our enemies and give back the earth to those who ennoble it with their courage and warm it with their love. *Promise at Dawn* begins as the story of a mother's sacrifice: alone and poor, she fights fiercely to give her son the very best. Romain Gary chronicles his childhood in Russia, Poland, and on the French Riviera; he recounts his adventurous life as a young man fighting for France in World War II. But above all he tells the story of the love for his mother that was his very life—their secret and private planet, their wonderland “born out of a mother's murmur into a child's ear, a promise whispered at dawn of future triumphs and greatness, of justice and love.”

Sustainable Conservation and Urban

Regeneration - Maria Grazia Folli 2017-12-05

This book documents research activities and design experimentation carried out within the scope of a project addressing conservation, urban regeneration, responsible use of resources, and sustainable development in a truly exceptional place: the city of Luxor. The project is a collaborative venture between the Politecnico di Milano, the Supreme Council of Antiquities of Egypt, and the Luxor Governorate and is one outcome of a program established by the Egyptian government in 2009 with the goal of discovering a buried treasure, the “Avenue of Sphinxes”, which connected the Karnak and

Luxor temples in ancient times. Readers will find an account of the excavations themselves, discussion of issues in restoration and conservation, and, above all, archaeological contextualization. Information is provided on integrated solutions to the problems arising from the scale of the excavation, for example in relation to urban morphology, the environment, road systems, infrastructure, housing, tourism, and individual and collective use of spaces. The book will appeal to all with an interest in strategies for enhancement of historical heritage in conjunction with urban regeneration and sustainable development.

On the Death and Life of Languages - Claude Hagège 2009-01-01

Twenty-five languages die each year; at this pace, half the world's five thousand languages will disappear within the next century. In this timely book, Claude Hagège seeks to make clear the magnitude of the cultural loss represented by the crisis of language death. By focusing on the relationship of language to culture and the world of ideas, Hagège shows how languages are themselves crucial repositories of culture; the traditions, proverbs, and knowledge of our ancestors reside in the language we use. His wide-ranging examination covers all continents and language families to uncover not only how languages die, but also how they can be revitalized—for example in the remarkable case of Hebrew. In a striking metaphor, Hagège likens languages to bonfires of social behavior that leave behind sparks even after they die; from these sparks languages can be rekindled and made to live again.

Horse Breeds and Human Society - Kristen Guest 2019-11-26

This book demonstrates how horse breeding is entwined with human societies and identities. It explores issues of lineage, purity, and status by exploring interconnections between animals and humans. The quest for purity in equine breed reflects and evolves alongside human subjectivity shaped by categories of race, gender, class, region, and nation. Focusing on various horse breeds, from the Chincoteague Pony to Brazilian Crioulo and the Arabian horse, each chapter in this collection considers how human and animal identities are shaped by practices of breeding and categorizing

domesticated animals. Bringing together different historical, geographical, and disciplinary perspectives, this book will appeal to academics, as well as undergraduate and postgraduate students, in the fields of human-animal studies, sociology, environmental studies, cultural studies, history, and literature.

Le Monde - 1984

The Sport of Kings and the Kings of Crime -

Steven A. Riess 2011-06-24

Thoroughbred racing was one of the first major sports in early America. Horse racing thrived because it was a high-status sport that attracted the interest of both old and new money. It grew because spectators enjoyed the pageantry, the exciting races, and, most of all, the gambling. As the sport became a national industry, the New York metropolitan area, along with the resort towns of Saratoga Springs (New York) and Long Branch (New Jersey), remained at the center of horse racing with the most outstanding race courses, the largest purses, and the finest thoroughbreds. Riess narrates the history of horse racing, detailing how and why New York became the national capital of the sport from the mid-1860s until the early twentieth century. The sport's survival depended upon the racetrack being the nexus between politicians and organized crime. The powerful alliance between urban machine politics and track owners enabled racing in New York to flourish. Gambling, the heart of racing's appeal, made the sport morally suspect. Yet democratic politicians protected the sport, helping to establish the State Racing Commission, the first state agency to regulate sport in the United States. At the same time, racetracks became a key connection between the underworld and Tammany Hall, enabling illegal poolrooms and off-course bookies to operate. Organized crime worked in close cooperation with machine politicians and local police officers to protect these illegal operations. In *The Sport of Kings and the Kings of Crime*, Riess fills a long-neglected gap in sports history, offering a richly detailed and fascinating chronicle of thoroughbred racing's heyday.

France: The Dark Years, 1940-1944 - Julian

Jackson 2003-03-05

The French call them 'the Dark Years'... This definitive new history of Occupied France explores the myths and realities of four of the most divisive years in French history. Taking in ordinary people's experiences of defeat, collaboration, resistance, and liberation, it uncovers the conflicting memories of occupation which ensure that even today France continues to debate the legacy of the Vichy years.

Using Russian - Derek Offord 2005-07-14

Using Russian is a guide to Russian usage for those who have already acquired the basics of the language and wish to extend their knowledge. Unlike conventional grammars, it gives special attention to those areas of vocabulary and grammar which cause most difficulty to English speakers, and focuses on questions of style and register which are all too often ignored. Clear, readable and easy to consult, it will prove invaluable to students seeking to improve their fluency and confidence in Russian. This second edition has been substantially revised and expanded to incorporate fresh material and up-to-date information. Many of the original chapters have been rewritten and one brand new chapter has been added, providing a clear picture of Russian usage in the 21st century.

International Encyclopedia of Abbreviations and Acronyms in Science and Technology Yearbook - Michael Peschke 2007

International Encyclopedia of Abbreviations and Acronyms in Science and Technology and the supplementary annuals for the years 2000 to 2006 now have over 1 million entries. This comprehensive reference work contains acronyms from a variety of disciplines and walks of life. It includes not only officially acknowledged abbreviations, but also takes out-of-date forms into account as well as those in

general everyday use. This extensive database has now been updated and indexed for individual fields of science and areas of society. This work extends and enlarges the basic work, beginning with Series A, covering abbreviation from the areas of politics, history and society. The series is published in two volumes, each with approximately 68,000 entries and their corresponding terms.

French-English Medical Dictionary - Alfred Gordon 1921

Using Spanish - R. E. Batchelor 2005-09-29
This 2005 book is a guide to Spanish usage for those who have already acquired the basics of the language and wish to extend their knowledge. Unlike conventional grammars, it focuses on those areas of vocabulary and grammar which cause most difficulty to English speakers. It fully illustrates the differences between the Spanish of Spain and Latin America, and looks in detail at register variation. Complete with a full word index, this clear and easy-to-consult text guides students through the richness and diversity of this major world language. This new edition has been extensively revised and updated to take a fuller account of Latin-American (particularly Mexican) usage. The vocabulary sections have been significantly expanded, and now include examples which contextualize each word or expression. The presentation of many sections has been improved to make reference even easier than before, and some completely new material has been added on semi-technical vocabulary and Anglicisms.

Mediated Geographies and Geographies of Media - Susan P. Mains 2015-10-12

This is the first comprehensive volume to explore and engage with current trends in Geographies of Media research. It reviews how conceptualizations of mediated geographies have evolved. Followed by an examination of diverse media contexts and locales, the book illustrates key issues through the integration of theoretical and empirical case studies, and reflects on the future challenges and opportunities faced by scholars in this field. The contributions by an international team of experts in the field, address theoretical perspectives on mediated geographies, methodological challenges and opportunities posed by geographies of media, the role and significance of different media forms and organizations in relation to socio-spatial relations, the dynamism of media in local-global relations, and in-depth case studies of mediated locales. Given the theoretical and methodological diversity of this book, it will provide an important reference for geographers and other interdisciplinary scholars working in cultural and media studies, researchers in environmental studies, sociology, visual anthropology, new technologies, and political science, who seek to understand and explore the interconnections of media, space and place through the examples of specific practices and settings.
