*Globalization Development and Social Justice* - Ann El Khoury 2015-03-27

Are there existing alternatives to corporate globalization? What are the prospects for and commonalities

between communities and movements such as Occupy, the World Social Forum and alternative economies? Globalization Development and Social Justice advances the proposition that another globalization is not only possible, but already exists. It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency, rather than oppositional agency such as resistance, is a more effective alternative to neoliberal globalization. El Khoury develops a theory of infraglobalization that emphasizes creative constitution, not just contestation, of global and local processes. The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North. These case studies are located in the informal social economy and community development, as well as everyday practices, from prefigurative politics to community cooperatives and participatory planning. This book makes an important contribution to debates about the prospects for, and practices of, a transformative grassroots globalization, and to critical debates about globalization and development strategies. It will be of interest to students and scholars of international relations, globalization, social movement studies, political and economic geography, sociology, anthropology and development studies.

[Lanterns on the Lanes](#) - George Abraham 2020-12-28

"Religions must have evolved as a way of life, doctrines may fade as we move towards spirituality on the road to truth, which is bright as the day light" In this simple compilation I have thought about a few lives, I hope have showed us some light to carry us through in the dark pervasive days of human lives. I believe in merciful God who sends his messengers to take up missions dedicated and delicate as they deal human minds. There are a many more in the shadows working earnestly, never seen or heard much about, only God and they know how valuable their beautiful selfless works prevail. Thoughts came to me in the daunting times of COVID 19; the need looming large in acts of mercy and co-existence. My mind wafted into thin air and took me to people who were the winds of change. It recalled the road we travelled along. Many inspirers, who were a guiding light as lanterns on the lanes were seen as beacons of hope, but will they fade away.... Deviating halfway down the journey, we need to ask: • "Did we travel on the right path?" • "Will we inspire good minds to join us in the journey and embrace the unreached?" • "Will we ever try to live by the laws of nature?" India has been blessed by Gita, the epic, in which Lord Krishna says, "If you walk in the path of Dharma, if you absorb and follow the path of righteousness, then you not only emerge as a true leader but also serve and bring about a stronger nation, stronger universe and a stronger world." "Where there is neither Greek nor Jew, circumcised nor uncircumcised, barbarian, Scythian, bond nor free: but Christ is all, and in all." Bible - Colossians, Chapter 3; Verse 11 In the Quran: "The term Advaita translated into Arabic would read 'Wahdahu-la-Shareek'—the one who has no second..." The time has come for us to rethink and reset our way of lives, embrace life in its fullest potential, hear a Coherent answer, attain a peaceful world, and a meet a merciful God. In this journey we need your loving hearts, your caring hands and merciful deeds. We have seen some great simple men and women do that in these dark days of sufferings. We shall Overcome... and make it a shining little blue marble, our home.

*Birds of a Feather* - Sita Singh 2021-03-02

Differences are gorgeously illustrated in a heartwarming picture book about a colorless peacock who learns to love himself in a jungle full of color. Mo has always felt a little different. While all the other peacocks grew bright, bold, beautiful feathers in rich greens and vibrant blues, Mo's feathers grew in a snowy white. And even though Mo's friends try to include him in their playtime, Mo doesn't like to be reminded that he's different from his friends. But when a storm threatens to ruin the group's annual celebration, Mo must learn to stand tall, strut his stuff, and shake his brilliantly glowing tail feathers--in a way only he can--to help his friends and set things right. From debut author Sita Singh, and brought to life by Stephanie Fizer Coleman, comes a story about finding strength in the things that make us different, and beauty in all its

forms.

*Of Birds And Birdsong* - M. Krishnan 2014-04

If Ernest Hemingway were to write about ecology and nature, he would have written like Krishnan. - The Indian Express Of Birds and Bird song is a masterpiece of great nature writing, natural history and wit at its best, by one of India's greatest naturalists ever. A must read for anybody who is a nature enthusiast or who simply loves prose and is surely a collector's delight! - The Hindu You should read this book if you know nothing about birds and equally, if you marvel at them or enjoy watching them and listening to their calls. - Outlook India is home to over a thousand species of birds ranging from glittering sun-birds, peacocks and pheasants through to unassuming inhabitants of town and countryside like crows, sparrows and pigeons to those that are rare and threatened like the Indian Bustard. In this book, many of them are brought to vivid life by one of the country's greatest naturalists and nature writers. M. Krishnan's prose is studded with evocative descriptions of nature, literary allusions, stylistic flourishes, humor and most rewardingly, precise observations and original insights into over a hundred species of birds in a variety of habitats. This is a work that will delight bird lovers of every stripe. As Zafar Futehally, one of the country's best known

ornithologists, says in his forward, every piece in this collection has something even for the seasoned naturalist and even his description of common events holds your interest because of the writing.
