Kill the Company - Lisa Bodell 2016-10-21
In the ever-changing world of business, we've arrived at a point where process has trumped culture, where the race toward efficiency has

left us unable to reach our potential. Stuck in the land of status quo, we've forgotten how to think. The very structures put in place to help businesses grow are now holding us back;; it's time to Kill the Company. This book is a call to arms: to start a revolution in how we think and work. But instead of more one-size-fits-all change initiatives forced upon employees, we need to embrace small changes that create ripple effects throughout the organization. Lisa Bodell urges companies to move from "Zombies, Inc." to "Think, Inc." Thinking can no longer be exclusive to the creative team or lead strategists. A culture of curiosity must be fostered among the ranks to shake up our standard practices, from unproductive meetings to go-nowhere strategic planning. This revolution can and will awaken our ability to think, and ultimately, to innovate and grow.

Radio Frequency and Microwave Electronics Illustrated - Matthew M. Radmanesh 2001
Foreword by Dr. Asad Madni, C. Eng., Fellow IEEE, Fellow IEE Learn the fundamentals of RF and microwave electronics visually, using many thoroughly tested, practical examples RF and microwave technology are essential throughout industry and to a world of new applications-in wireless communications, in Direct Broadcast

TV, in Global Positioning System (GPS), in healthcare, medical and many other sciences. Whether you're seeking to strengthen your skills or enter the field for the first time, Radio Frequency and Microwave Electronics Illustrated is the fastest way to master every key measurement, electronic, and design principle you need to be effective. Dr. Matthew Radmanesh uses easy mathematics and a highly graphical approach with scores of examples to bring about a total comprehension of the subject. You Are Your Best Thing - Tarana Burke

2022-01-25

NEW YORK TIMES BESTSELLER • Tarana Burke and Dr. Brené Brown bring together a dynamic group of Black writers, organizers, artists, academics, and cultural figures to discuss the topics the two have dedicated their lives to understanding and teaching:

vulnerability and shame resilience.

Contributions by Kiese Laymon, Imani Perry, Laverne Cox, Jason Reynolds, Austin Channing Brown, and more NAMED ONE OF THE BEST BOOKS OF THE YEAR BY MARIE CLAIRE AND BOOKRIOT It started as a text between two friends. Tarana Burke, founder of the 'me too.' Movement, texted researcher and writer Brené Brown to see if she was free to jump on a call. Brené assumed that Tarana wanted to talk about wallpaper. They had been trading home decorating inspiration boards in their last text conversation so Brené started scrolling to find her latest Pinterest pictures when the phone rang. But it was immediately clear to Brené that the conversation wasn't going to be about wallpaper. Tarana's hello was serious and she hesitated for a bit before saying, "Brené, you know your work affected me so deeply, but as a Black woman, I've sometimes had to feel like I have to contort myself to fit into some of your words. The core of it rings so true for me, but

the application has been harder.” Brené replied, “I’m so glad we’re talking about this. It makes sense to me. Especially in terms of vulnerability. How do you take the armor off in a country where you’re not physically or emotionally safe?” Long pause. “That’s why I’m calling,” said Tarana. “What do you think about working together on a book about the Black experience with vulnerability and shame resilience?” There was no hesitation. Burke and Brown are the perfect pair to usher in this stark, potent collection of essays on Black shame and healing. Along with the anthology contributors, they create a space to recognize and process the trauma of white supremacy, a space to be vulnerable and affirm the fullness of Black love and Black life.
