Fiction Without Humanity - Lynn Festa 2019-06-28

Although the Enlightenment is often associated with the emergence of human rights and humanitarian sensibility, "humanity" is an elusive category in the literary, philosophical, scientific, and political writings of the period. Fiction Without Humanity offers a literary history of late seventeenth- and early eighteenth-century efforts to define the human. Focusing on the shifting terms in which human difference from animals, things, and machines was expressed, Lynn Festa argues that writers and artists treated humanity as an indefinite class, which needed to be called into being through literature and the arts. Drawing on an array of literary, scientific, artistic, and philosophical devices—the riddle, the fable, the microscope, the novel, and trompe l'oeil and still-life painting—Fiction Without Humanity focuses on experiments with the perspectives of nonhuman creatures and inanimate things. Rather than deriving species membership from sympathetic identification or likeness to a fixed template, early Enlightenment writers and artists grounded humanity in the enactment of capacities (reason, speech, educability) that distinguish humans from other creatures, generating a performative model of humanity capacious enough to accommodate broader claims to human rights. In addressing genres typically excluded from canonical literary histories, Fiction Without Humanity offers an alternative account of the rise of the novel, showing how these early experiments with nonhuman perspectives helped generate novelistic techniques for the representation of consciousness. By placing the novel in a genealogy that embraces paintings, riddles, scientific plates, and fables, Festa shows realism to issue less from mimetic exactitude than from the tailoring of the represented world to a distinctively human point of view.

Handbook of Reading Research, Volume III - Michael L. Kamil 2016-11-18

In Volume III, as in Volumes I and II, the classic topics of reading are included—from vocabulary and comprehension to reading instruction in the classroom—and, in addition, each contributor was asked to include a brief history that chronicles the legacies within each of the volume's many topics. However, on the whole, Volume III is not about tradition. Rather, it explores the verges of reading research between the time Volume II was published in 1991 and the research conducted after this date. The editors identified two broad themes as representing the myriad of verges that have emerged since Volumes I and II were published: (1) broadening the definition of reading, and (2) broadening the reading research program. The particulars of these new themes and topics are addressed.

Together in a Sudden Strangeness - Alice Quinn 2020-11-17

In this urgent outpouring of American voices, our poets speak to us as they shelter in place, addressing our collective fear, grief, and hope from eloquent and diverse individual perspectives. "One of the best books of poetry of the year . . . Quinn has accomplished something dizzying here: arranged a stellar cast of poets . . . It is what all anthologies must be: comprehensive, contradictory, stirring." —The Millions **Featuring 107 poets, from A to Z—Julia Alvarez to Matthew Zapruder—with work in between by Jericho Brown, Billy Collins, Fanny Howe, Ada Limón, Sharon Olds, Tommy Orange, Claudia Rankine, Vijay Seshadri, and Jeffrey Yang** As the novel coronavirus and its devastating effects began to spread in the United States and around the world, Alice Quinn reached out to poets across the country to see if, and what, they were writing under quarantine. Moved and galvanized by the response, the onetime New Yorker poetry editor and recent former director of the Poetry Society of America began collecting the poems arriving in her inbox, assembling this various, intimate, and intricate portrait of our suddenly altered reality. In these pages, we find poets grieving for relatives they

are separated from or recovering from illness themselves, attending to suddenly complicated household tasks or turning to literature for strength, considering the bravery of medical workers or working their own shifts at the hospital, and, as the Black Lives Matter movement has swept the globe, reflecting on the inequities in our society that amplify sorrow and demand our engagement. From fierce and resilient to wistful, darkly humorous, and emblematically reverent about the earth and the vulnerability of human beings in frightening times, the poems in this collection find the words to describe what can feel unspeakably difficult and strange, providing wisdom, companionship, and depths of feeling that enliven our spirits. A portion of the advance for this book was generously donated by Alice Quinn and the poets to Chefs for America, an organization helping feed communities in need across the country during the pandemic.

The Reader, the Text, the Poem - Louise M. Rosenblatt 1994-09-21

Starting from the same nonfoundationalist premises, Rosenblatt avoids the extreme relativism of postmodern theories derived mainly from Continental sources. A deep understanding of the pragmatism of Dewey, James, and Peirce and of key issues in the social sciences is the basis for a view of language and the reading process that recognizes the potentialities for alternative interpretations and at the same time provides a rationale for the responsible reading of texts. The book has been praised for its lucid explanation of the multidimensional character of the reading process - evoking, interpreting, and evaluating the work. The nonliterary (efferent) and the literary (aesthetic) are shown not to be opposites but to represent a continuum of reading behaviors. The author amply illustrates her theoretical points with interpretations of varied texts. The epilogue carries further her critique of rival contemporary theories.

Developing Response to Poetry - Patrick Dias 1988

Reading Literature Historically - Greg Walker 2013-02-06

Pioneer of early-modern literary historicism reads Medieval & early Tudor drama & poetry historically. How far should we try to read medieval and early modern texts historically? Does the attempt to uncover how such texts might have been received by their original readers and audiences uncover new, hitherto unexpected contemporary resonances in them? Or does it flatten works of art into mere 'secondary sources' for historical analysis? This book makes the case for the study of literature in context. It demonstrates the value of historical and cultural analysis alongside traditional literary scholarship for enriching our understanding of plays and poems from the medieval and early Tudor past and of the cultures which produced and received them. It equally accepts the risks involved in that kind of study.
