Alise in Cuckooland - Clara Tan 2020-06-12

Alise in Cuckooland is a semi-autobiographical novel of a girl in her twenties facing the most confused, helpless and desperate stage in her life when she entered a mental hospital in Singapore. The question is besides whether she is suffering from a mental illness or not. When fiction becomes fact, and fact becomes fiction, what is real and what is not? How is she going to survive this period? What she did not realise, is how her hallucination, as in the case of Dr. Lie, and the nurses and patients in Looney Hospital, helped her battle with her surroundings and showed her love, compassion and empathy in the highest degree possible, sometimes even more so than her so-called family kin. Author's Note: My purpose in writing this novel, besides a reflection of my own experiences and with some crafting of my imagination, was also for the people in their twenties who might be feeling a little confused in Life. This novel was aimed to make my readers laugh and cry with the protagonist, and also realize that it would be okay to laugh and cry in their own lives. This novel was written not to educate or establish opinions of any sort, but to realize its mission of making us all feel a little more human.

**Governance for Harmony in Asia and Beyond** - Julia Tao 2009-12-18

Harmony has become a major challenge for modern governance in the twenty-first century because of the multi-religious, multi-racial and multi-ethnic character of our increasingly globalized societies.

Governments all over the world are facing growing pressure to integrate the many diverse elements and subcultures which make up modern pluralistic societies. This book examines the idea of harmony, and its place in politics and governance, both in theory and practice, in Asia, the West and elsewhere. It explores and analyses the meanings, mechanisms, dimensions and methodologies of harmony as a normative political ideal in both Western and Asian philosophical traditions. The book argues that in Western political thought - which sees politics as primarily concerned with resolving social conflicts and protecting individual rights - the concept of harmony has often been neglected. In contrast, since earliest times harmony or 'he' has been a profound theme in Confucian thought, and current leaders of many East Asian governments, and the Chinese government, have explicitly declared that the realisation of a harmonious society is their aim. The book also assesses how harmony is pursued, jeopardized or deformed in the real world of politics, based upon empirical analysis of a variety of different cultural, social and political contexts, including: China, Hong Kong, Singapore, Malaysia, Singapore, Vietnam, Denmark, Latin America and the Scandinavian countries. It shows how harmony as an organizing concept can help to promote new thinking in governance, and overcome problems of modern-day governance like distrust, adversarial conflicts, hyper-individualism, coercive state intervention, and free-market alienation. It also discusses the potential problems posed by the pursuit of harmony, in particular in the grave threat of totalitarianism, and considers how these risks could best be mitigated.
