[Nature of Human Thought \(second edition\)](#) - Anil K Rajvanshi 2010-08-30

This second edition of the book presents a unique scientific perspective on the nature of human thought, its production, transmission and interaction with matter. A conceptual framework is attempted to show how deep human thought, space, time, matter and Universal Consciousness are related. The nature of thought and mind control according to ancient Patanjali Yoga Darshan is explained in the light of modern brain research and cosmology. The book provides a beautiful blend of Indian philosophical thought and modern science. Dr. Rajvanshi brings into these essays a deep scientific insight on the nature of human mind and shows how the cultivation of deep thought can help us on the path of spirituality so that we can live a happy and sustainable life. The essays also explore the relationship between spirituality, science and technology and show that they go hand in hand and are necessary for a sustainable and emotionally satisfying world.

[Grassroots Innovation](#) - Anil K Gupta 2016-07-20

A moral dilemma gripped Professor Gupta when he was invited by the Bangladeshi government to help restructure their agricultural sector in 1985. He noticed how the marginalized farmers were being paid poorly for their otherwise unmatched knowledge. The gross injustice of this constant imbalance led Professor Gupta to found what would turn into a

resounding social and ethical movement—the Honey Bee Network—bringing together and elevating thousands of grassroots innovators. For over two decades, Professor Gupta has travelled through rural lands unearthing innovations by the ranks—from the famed Mitti Cool refrigerator to the footbridge of Meghalaya. He insists that to fight the largest and most persistent problems of the world we must eschew expensive research labs and instead, look towards ordinary folk. Innovation—that oft-flung around word—is stripped to its core in this book. Poignant and personal, Grassroots Innovation is an important treatise from a social crusader of our time.

**Space and Beyond** - B. N. Suresh 2021-04-17

This book discusses the journey of Dr. K Kasturirangan, who shares his experience during his long tenure at ISRO including the Chairmanship of ISRO, subsequently membership of the Rajya Sabha, the Planning Commission and many other responsibilities. Over the past five decades of public and professional service to the nation, Dr. Kasturirangan has graduated from a young researcher in astrophysics working under Vikram Sarabhai to leading India's space program (ISRO), being entrusted by five successive Prime Ministers, besides dealing with several other domains of responsibilities beyond space, all of which have significantly impacted India's development. This book centers around

select 12 public invited lectures, Dr. Kasturirangan delivered ranging from developing hi-tech space systems, to managing an organization as intricate as ISRO which was guided by the wisdom of mentors, including Vikram Sarabhai, M G K Menon, Satish Dhawan and U. R. Rao, to tackling multi-faceted socio-economic issues, including India's nuclear deal, report headed by him on the Western Ghats ecosystem, and the new National Education Policy 2020. Scientists, historians, policy makers, management strategists, journalists, or anyone with a keen interest in understanding the processes behind such large-scale science, technology and socio-economic endeavors – right from planning, creating appropriate institutional mechanisms, working with multiple stakeholders to ensure that these programs deliver tangible benefits to society, articulating these benefits with clarity to political leaders to assure public support – will find this book deeply instructive and illuminating. It will be of interest to the scientific, education and management community as well as to policy makers and researchers affiliated with multifaceted developmental issues.

**Services Chiefs of India** - S. Sartaj Alam Abidi 2007

The present book is the story of gallant sons of Indian soil. They staked their lives in the service of the country. It was their bravery and daredevilry that earned the name and reputation for Indian forces. Without their courage and leadership Indian Forces could never achieve the prominence. All the countries of the world know that Indian Soldiers, Sailors and Air-men can die for the country but can never betray it. The

First World War and Second World War are the witness of their bravery and courage. They fought in the extreme climatic conditions with minimum resources - in the desert, oceans and in the air. It is the duty of every one of us to pay our homage to these fearless persons working under the leadership of the Chiefs of Army, Navy and Air Forces. This book is the succinct and lucid portrayal of the service elites who are the embodiment of gallantry, undaunted courage and devotion to duty. This book is a humble tribute to their bravery and patriotism. This book will be very useful to service officers, youths and research scholars. It will save their precious time by providing all the essential information about the Services Chiefs of India. Salient Features 1. 11 Portrait Photos of the supreme commanders of Armed Forces. 2. 16 coloured and 4 black & white photographs on art paper make the book colourful. 3. 22 Generals, 18 Admirals, 20 Air Marshal & Air Chief Marshal portrait photographs make it a rare collection. 4. It's a vivid glimpse of the Martial History of India from independence to-date.

*Wastewater Management Through Aquaculture* - B. B. Jana 2018-02-05

This volume provides state-of-the-art information on soil-water interactions in wastewater systems, characterization of wastewater, modes of treatment, safety of wastewater use, water conservation technologies involved in recycling of sewage in fish culture, biogeochemical cycling bacteria and nutrient dynamics, ecosystem resilient driven wastewater reclamation, bioremediation, aquaponics, ecological integrity, culture practices of fish farming, microbial food web phenomena, fish diseases, environmental economics of wastewater, environmental risk assessment, environmental law and regulations. Given its breadth of coverage, the book will be useful to researchers,

teachers, students, administrators, planners, farmers and entrepreneurs interested in the profitable use of wastewater in the wastes-into-wealth framework of for the benefit of humanity, and in achieving the targets for sanitation and safe wastewater reuse by 2030, specified in the United Nations' Sustainable Development Goals. Concerns are growing about the quality and quantity of fresh water, as severe crises are expected in the near future. Climate change has further worsened the strain on inland water resources, with its major impacts on ecosystems and human life. It is most urgent to protect and conserve inland water resources to maintain vital ecosystem functions. Despite the immense nutrient potentials of wastewater in terms of phosphorus, nitrogen and potassium and increasingly high rates of urbanization-based wastewater generation, wastewater has traditionally been overlooked as a resource. This produces a threefold loss - environmental degradation, monetary losses from fertilizers, and water. As a result, municipal wastewater offers a win-win strategy for water conservation and environmental protection, while also turning waste into wealth in the form of fish biomass and allied cash crops. Wastewater-fed aquaculture refers to a unique, integrated biosystem in which the wastes generated by the first system are used by the next subsystem. In wastewater-fed aquaculture biosystems, the organic wastes are recycled into fish biomass mediated through a complex microbial/autotrophic/heterotrophic food web mechanism.

*Indian Medicinal Plants* - P. K. Warriar 1993

Indian Medicinal Plants, based on a treatise prepared by S. Raghunatha Iyer, a scholar of both Sanskrit and Ayurveda, aims to make an authoritative contribution to the field. The original work which drew upon classical texts and current research, as well as the oral medical knowledge of tribal groups has been updated by scholars associated with the Arya Vaidya Sala in Kottakal, India. This unique compendium offers profiles of 500 key species with detailed taxonomic information. One of the leading features of this compilation is the special technique used in the illustrations, both colour and line, which aims to achieve authenticity of texture, colour and form. The book also lists the distribution and popular nomenclature in English, Sanskrit, Hindi, Malayalam and Tamil. The main texts present properties and uses in a format which cites ancient verse texts and ethnobotanical sources. This rare work, in five volumes, should be of special interest to practitioners of alternative medicine, students of Ayurveda, the research and industry associated with medical botany, pharmacologists, sociologists and medical herbalists.

**The Mirror of Beauty** - Shamsur Rahman Faruqi 2014-03-21

It is the sunset of the Mughal Empire. The splendour of imperial Delhi flares one last time. The young daughter of a craftsman in the city elopes with an officer of the East India Company. And so we are drawn into the story of Wazir Khanam: a dazzlingly beautiful and fiercely independent woman who takes a series of lovers, including a Navab and a Mughal prince—and whom history remembers as the mother of the famous poet Dagh. But it is not just one life that this novel sets out to capture: it paints in rapturous detail an entire civilization. Beginning with the story of an enigmatic and gifted painter in a village near Kishangarh, *The Mirror of Beauty* embarks on an epic journey that sweeps through the death-giving deserts of Rajputana, the verdant valley of Kashmir and the glorious cosmopolis of Delhi, the craft of miniature painting and the art of carpet designing, scintillating musical performances and recurring paintings of mysterious, alluring women. Its scope breathtaking, its language beguiling, and its style sumptuous, this is a work of profound beauty, depth and power.

*Fifty Years in the East* - Farhad Daftary 2014-12-02

I.B.Tauris in association with the Institute of Ismaili Studies Few fields of Islamic studies have witnessed as much progress in modern times as Ismaili studies, and in even fewer instances has the role of a single individual been as pivotal in initiating progress as that of Wladimir Ivanow (1886-1970), whose memoirs are now published here for the first time. The breakthrough in modern Ismaili studies occurred mainly as a result of the recovery and study of a large number of texts relating to the field, which had not been available to the earlier generations of orientalists. The Persian and Arabic Ismaili manuscripts, many edited and published by Ivanow, reflect a rich diversity of intellectual and literary traditions. Ivanow left his native Russia soon after the October Revolution of 1917 and settled in India where he was formally commissioned in 1931 by Sultan Muhammad Shah Aga Khan III, the 48th Imam of the Nizari Ismailis, to investigate the history and teachings of the Ismailis. Henceforth, Ivanow began the systematic recovery and study of texts from this tradition of Shi'i Islam, discovered in India, the

Middle East and Central Asia, amongst other regions. He also played a key role in the establishment of the Ismaili Society - the first research institution of its kind with a major collection of Ismaili manuscripts. Ivanow made these manuscripts available to other scholars, thereby contributing to further progress in the field. Ivanow completed his memoirs, entitled *Fifty Years in the East*, in 1968, shortly before his death. This work, originally written in Russian, is comprised of an autobiography and vivid accounts from his travels. These convey his ethnologist's interest in 'the archaeology of the way of life' and profound curiosity for regional customs and languages. The memoirs, written in Tehran during Ivanow's final years, have now been edited with substantial annotations by Farhad Daftary. They reveal for the first time the circumstances under which modern Ismaili studies were initiated and an eyewitness account of several regions during the early decades of the twentieth century before the rapid onset of modernisation.

*Yash Chopra* - Rachel Dwyer 2019-07-25

As a charismatic director in the Indian film industry, Chopra's name is synonymous with the glamour of the romantic film and a certain style within Indian culture. Spanning four decades, his directed features include some of the classic films of Indian film history, such as 'Deewaar' and 'Kabhi Kabhie'. His directorial career began in 1959 with 'Dhool Ka Phool' and he has been a major producer since 1973, consolidating his success in the 1990s with a series of huge box office hits including 'Dilwale Dulhaniya Le Jayenge'. He has also worked in other Hindi movie genres, directing action movies such as 'Mashaal' and a thriller, 'Darr'. This book discusses in depth his work with the Hindi megastar Amitabh Bachchan in films such as 'Deewaar', 'Trishul', 'Kala Patthar' and 'Silsila' and how, in his transformation of the look of mainstream cinema in 'Dil To Pagal Hai' and other films, Yash Chopra has proved to be a tireless innovator within a mainstream tradition. The author integrates this analysis with information about the man and his work, based on interviews with Yash Chopra, his family, his colleagues, his stars, his contemporaries and major critics that include views from Amitabh Bachchan, Shahrukh Khan, Shashi Kapoor and Sri Devi. A study of a top

contemporary Indian film director, Rachel Dwyer's book also examines the influence on Chopra of predecessors such as Raj Kapoor and how his own legacy can be seen in such films as 'Kuch Kuch Hota Hai' and younger directors such as Karan Johar and Aditya Chopra.

*What Doctors Don't Get to Study in Medical School* - B. M. Hegde 2006

This book provides part of the important and formative reading a medical student must do outside the prescribed requirements for a degree, and is also equally valuable to qualified practitioners and medical professionals. Here, laid out clearly and concisely, are all the well-established potholes and pitfalls in current medical thinking and practice. It is a thought provoking challenge to modern medical practice and research and is intended to encourage us to consider the way medicine is taught. Modern medical practices are driven by science, technology and consumerism, with the cost of treatment weighted in favour of the doctor rather than to the benefit of the patient. Dr. Hegde confronts the issue, and proposes an alternative humanistic attitude to education and treatment. Drawing on a huge range of resources from Sanskrit texts, Green and European philosophers, ancient and modern healers, to the most up to date Western research and publications - he has written a book that is both scholarly yet easy to read, a polemic against and an appreciate of the art and practice of medicine, and which will appeal to everyone involved in medicine whether students, practitioners or patients.

*Two Men and Music* - Janaki Bakhle 2005-10-20

A provocative account of the development of modern national culture in India using classical music as a case study. Janaki Bakhle demonstrates how the emergence of an "Indian" cultural tradition reflected colonial and exclusionary practices, particularly the exclusion of Muslims by the Brahmanic elite, which occurred despite the fact that Muslims were the major practitioners of the Indian music that was installed as a "Hindu" national tradition. This book lays bare how a nation's imaginings--from politics to culture--reflect rather than transform societal divisions.

**The Dissent of Nazrul Islam** - Priti Kumar Mitra 2009

Kazi Nazrul Islam (1899-1976) came into prominence in the 1920s as the 'Rebel Poet', startling the Indian literary world with his radical ideas and defiant utterances. The Dissent of Nazrul Islam focuses primarily on Nazrul's dissent against the British colonial government in India, the Gandhian non-violent means of national struggle, Islamic fundamentalism and Hindu cultural chauvinism, as well as the hegemony of Rabindranath Tagore in the world of Bengali literature. The volume also includes the English translation of some of Nazrul's verses of dissent and protest, and discusses the context of others. Surveying the literary, political, social, cultural, and intellectual circumstances that shaped Nazrul's ideas and actions and his exchanges with his space, time, and

environs, Mitra illustrates how there opened alternate ways of thought and writing. This volume will be of interest to students and research scholars of South Asian history, comparative literature, and cultural studies, as well as general readers.

Based on economic and social problems of farmers in Indian society.

**Super 30** - Anand Kumar 2016-05-23

Anand Kumar, a mathematics prodigy, defied all challenges to set up one of the most successful and innovative teaching initiatives in the world—Super 30. Born in Chandipur Bela, Patna, Anand secured a place in Cambridge University but couldn't attend because he had no money and sold papads in the evenings instead. He dealt with his own disappointment by setting up an innovative school in 2002 to prepare underprivileged students for the IIT JEE examination. Super 30 has an astonishing success rate and on an average, twenty-seven to twenty-eight of the thirty students crack the exam every year. Stirring and heart-wrenching, this is the extraordinary story of a visionary who has elevated these bright sparks and, through education, given them hope to rise

above crippling poverty.
