Bestselling biographer Sean Smith traces the astonishing journey of the shy little English boy with a stammer who recorded an album in his bedroom and grew up to become a global phenomenon, all the while avoiding flashy showmanship. With compelling new research and interviews, Smith delivers the story of Sheeran's remarkable parents, who supported their son's dream long before it seemed achievable; the friends and mentors who encouraged his raw talent; and the lovers who inspired his most famous songs. Smith describes the setbacks Sheeran faced before his fortunes were transformed by Elton John's management company, a record deal, and a song that changed everything—with some help from Taylor Swift. Now Sheeran has sold more than 150 million records worldwide and earned \$432 million touring in 2018 alone—but still made time to play for just 400 people at a charity night to raise money for the homeless. As this captivating book reveals, there's no one quite like Ed. Victoria Beckham: The Biography - Sean Smith 2008

Victoria Beckham is one of the most famous women in the world and an iconic figure for modern women in Britain. Now, the UK's leading celebrity biographer, Sean Smith, believes it is time to reassess this remarkable woman. New research into her background, her early life and ambitions reveal a fascinating portrait of the girl who transformed herself from an overweight, spotty and bullied teenager into the aspirational figure she is today. Victoria is a

Literature and the Human - Andy Mousley 2013-05-29
Why does literature matter? What is its human value? Historical approaches to literature have for several decades prevailed over the idea that literary works can deepen our understanding of fundamental questions of existence. This book re-affirms literature's existential value by developing a new critical vocabulary for thinking about literature's human meaningfulness. It puts this vocabulary into practice through close reading of a wide range of texts, from *The Second Wakefield* to *Shepherds' Play* to Mohsin Hamid's *The Reluctant Fundamentalist*. Individual chapters discuss: Literature's engagement of the emotions Literature's humanisation of history Literature's treatment of universals and particulars The depth of reflection provoked by literary works Literature as a special kind of seeing and framing The question at the heart of the volume, of why literature matters, makes this book relevant to all students and professors of literature.

The Science of Serendipity - Matt Kingdon 2013-02-08
Innovation. The word might make you think of Silicon Valley. But innovation isn't the sole province of start-ups. They didn't invent it, and they're not always the ones from which we can best learn. As Matt Kingdon argues in *The Science of Serendipity*, it's corporate innovators battling within large, established organisations who are the field's real heroes. Tapping into 20 years of experience on the front lines of innovation—bringing new products and services to market and helping organisations become more creative—Kingdon dissects the ways in which corporations are continually reborn. He looks at the anatomy of innovation, asking: How do time-pressed executives go about taking risks? How do they prepare to see—and seize—opportunity? And how do you place humans, with all of their fears and foibles, at the heart of commercial success? In a conversational, jargon-free style built on a practitioner's observations and anecdotes, *The Science of Serendipity* traces the dilemmas that executives in a wide variety of firms face. It details the steps taken to overcome the issues and get great ideas across the finish line. If you're looking for a guide in your fight against the corporate machine, this is the business book for you. Matt Kingdon is the Co-founder, Chairman, and Chief Enthusiast of What If! Innovation Partners. For 20 years, What If! has partnered with the world's most successful, forward-looking companies—businesses such as Barclays, Four Seasons, Google, PepsiCo, Pfizer, and Virgin—to galvanise innovation and deliver impact. Its 250 inventors work across the Americas, Europe, and Asia.

Unusually Stupid Celebrities - Kathryn Petras 2009-04-22

The Greeks honored Zeus, the Romans revered Juno, but modern civilization worships a different sort of god: Celebrity. Face it, we follow the stars' every move, fashion choice, and deliciously dishy affairs. Now Kathryn Petras and Ross Petras, authors of *Unusually Stupid Americans*, pull the demanding divas, screwball stars, and celeb-tweets off their pedestals—and prove it doesn't take a degree in rocket science to become famous. Cases in point: • Courtney Love misses an important court date relating to "possession of a controlled substance" because she can't find a professional bodyguard at the last minute. • Mariah Carey's entourage includes a skirt-from-touching-floor specialist, a towel hand-off person, and a professional drink holder/lifter. • Savvy traveler Paris Hilton concludes that all of Europe is, "like, French." • Mensa candidate and rocker Tommy Lee is pretty sure that Winston Churchill was president during the Civil War, that the numeric equivalent of pi is "the two-equals-MC-squared thing," and that an isosceles triangle is "somewhere in Bermuda." Feuds, faith, family, money, sex, tantrums, travel—no star-studded stone is left unturned. Filled with jaw-dropping anecdotes, quirky quotes, and special stupid-celebrity awards, *Unusually Stupid Celebrities* provides a red-faced glimpse of the red carpet.

Saltwater - Jessica Andrews 2020-01-14

A Best Book of 2020: Open Letters Review "Andrews's writing is transportingly voluptuous, conjuring tastes and smells and sounds like her literary godmother, Edna O'Brien . . . What makes her novel sing is its universal themes: how a young woman tries to make sense of her world, and how she grows up." -Penelope Green, The New York Times Book Review This "luminous" (The Observer) feminist coming-of-age novel captures in sensuous, blistering prose the richness and imperfection of the bond between a daughter and her mother It begins with our bodies . . . Safe together in the violet dark and yet already there are spaces beginning to open between us. From that first immaculate, fluid connection, through the ups and downs of a working-class childhood in northern England, the one constant in Lucy's life has been her mother: comforting and mysterious, ferociously loving, tirelessly devoted, as much a part of Lucy as her own skin. Her mother's lessons in womanhood shape Lucy's appreciation for desire, her sense of duty as a caretaker, her hunger for a better, perhaps reckless life. At university in glamorous London, Lucy's background sets her apart. And then she is finished, graduated, adrift. She escapes to a tiny house in Donegal left

empty by her grandfather, a place where her mother once found happiness. There she will take a lover, live inside art and the past, and track back through her memories and her mother's stories to make sense of her place in the world. In "a stunning new voice in British literary fiction" (The Independent) that lays bare our raw, dark selves, Jessica Andrews's debut honors the richness and imperfection of the bond between a daughter and her mother. Intricately woven in lyrical vignettes, *Saltwater* is a novel of becoming-- a woman, an artist-- and of finding a way forward by looking back.

The Better Mousetrap - Simon Pont 2012-11-03

Advertising can be great. Great advertising, that is. Brands live or die on the power of their advertising and the advertiser's role is to build better mousetraps. But why do we love certain brands and passionately or indifferently reject the rest? What do our brands say about us? And why do we feel so compelled to use digital brands to say even more?

Advertising has always been the hard sell and subtle hustle that piques our interest and gets us thinking I WANT that, but in a world that now moves with binary speed, the Brand Game is taking ever-new and remarkable turns in its pursuit of better and faster mice. A provocative and insightful look at the chase, *The Better Mousetrap* lifts the lid on the brand and advertising strategies of leading companies who, in a world redefined by digital media, are setting the best traps for these ever quicker mice.

In the Limelight and Under the Microscope - Diane Negra 2011-03-17

This timely collection explores the politics of female celebrity across a range of contemporary and historical media contexts. Amidst concerns about the apparent 'decline' in the currency of modern fame ('famous for being famous'), as well as debates about the shifting parameters of public/private visibility, it is female celebrities who are positioned as the most active discursive terrain. This collection seeks to interrogate such phenomena by forging a greater conceptual, theoretical and historical dialogue between celebrity studies and critical gender studies. It takes as its starting point the understanding that female celebrity is a particularly fraught cultural phenomenon with ideological and industrial implications that warrant careful scrutiny. In moving across case studies from the 19th century to the present day, this book works from the assumption that the case study should play a crucial role in generating debate about the dialogue between 'past' and 'present', and the individual essays seek to reflect this spirit of enquiry
