Arabic Language and Linguistics - Reem Bassiouney
2012-04-16

Arabic, one of the official languages of the United Nations, is spoken by more than half a billion people around the world and is of increasing importance in today's political and economic spheres. The study of the

Arabic language has a long and rich history: earliest grammatical accounts date from the 8th century and include full syntactic, morphological, and phonological analyses of the vernaculars and of Classical Arabic. In recent years the academic study of Arabic has become increasingly sophisticated and broad. This state-of-the-art volume presents the most recent

research in Arabic linguistics from a theoretical point of view, including computational linguistics, syntax, semantics, and historical linguistics. It also covers sociolinguistics, applied linguistics, and discourse analysis by looking at issues such as gender, urbanization, and language ideology. Underlying themes include the changing and evolving attitudes of speakers of Arabic and theoretical approaches to linguistic variation in the Middle East.

Crossing the Global Quality Chasm - National Academies of Sciences, Engineering, and Medicine 2019-01-27

between what is achievable in human health and where global health stands today, and progress has been both incomplete and unevenly distributed. In order to meet this goal, a deliberate and comprehensive effort is needed to improve the quality of health care services globally. Crossing the Global Quality Chasm: Improving Health Care Worldwide focuses on one particular shortfall in health care affecting global populations: defects in the quality of care. This study reviews the available evidence on the quality of care worldwide and makes recommendations to improve health care quality globally while expanding access to preventive and therapeutic services, with a focus in low-resource areas. Crossing the Global Quality Chasm emphasizes the organization and delivery of safe and effective care at the patient/provider interface. This study explores issues of access to services and commodities, effectiveness, safety, efficiency,

and equity. Focusing on front line service delivery that can directly impact health outcomes for individuals and populations, this book will be an essential guide for key stakeholders, governments, donors, health systems, and others involved in health care.

Paris in the Dark - Eric Smoodin 2020-03-27

In Paris in the Dark Eric Smoodin takes readers on a journey through the streets, cinemas, and theaters of Paris to sketch a comprehensive picture of French film culture during the 1930s and 1940s. Drawing on a wealth of journalistic sources, Smoodin recounts the ways films moved through the city, the favored stars, and what it was like to go to the movies in a city with hundreds of cinemas. In a single week in the early 1930s, moviegoers might see Hollywood features like King Kong and Frankenstein, the new Marlene Dietrich and Maurice Chevalier movies, and any number of films from Italy, Germany, and Russia. Or they could frequent the city's ciné-

clubs, which were hosts to the cinéophile subcultures of Paris. At other times, a night at the movies might result in an evening of fascist violence, even before the German Occupation of Paris, while after the war the city's cinemas formed the space for reconsolidating French film culture. In mapping the cinematic geography of Paris, Smoodin expands understandings of local film exhibition and the relationships of movies to urban space.

Sartre, Jews, and the Other -

Manuela Consonni 2020-02-24

The starting point for this compilation is the wish to rethink the concept of antisemitism, race and gender in light of Sartre's pioneering *Réflexions sur la Question Juive* seventy years after its publication. The book gathers texts by prestigious scholars from different disciplines in the Humanities and the Social Sciences, with the objective of revisiting this work locating it within the setting of two other pioneering - and we argue, related - publications, namely Simone De Beauvoir's *Le deuxième sexe* of 1949 and Franz Fanon's *Peau noire et masques blancs* of 1952. This particular and original standpoint sheds new light on the different meanings and political functions of the concept of antisemitism in a political and historical context marked by the post-modern concepts of multi-ethnicity and multiculturalism.

The document lays down extensively the framework demarcating fundamental political code, structure, procedures, powers, and duties of government institutions and sets out fundamental rights, directive principles, and the duties of citizens. It is the longest written constitution of any country on earth. B. R. Ambedkar, chairman of the drafting committee, is widely considered to be its chief architect. In this edition, the text of the Constitution of India has been brought up-to-date by incorporating therein all amendments made by Parliament up to and including the Constitution (One Hundredth Amendment) Act, 2015 which contains details of acquired and transferred territories between the Governments of India and Bangladesh and the same has been included in Annexure.

consciousness in face of War on Terror policies. This remarkable phenomenon extends from the banlieues of Paris to the favelas of Rio de Janeiro, from the park jams of the South Bronx to the Sufi rock bands of Pakistan. The United States and other Western governments have even tapped into these trends, using hip hop and Sufi music to de-radicalize Muslim youth abroad. Aidi situates these developments in a broader historical context, tracing longstanding connections between Islam and African-American music. Thoroughly researched, beautifully written, Rebel Music takes the pulse of a revolutionary soundtrack that spans the globe.

One Hand Does Not Catch a Buffalo: 50 Years of Amazing Peace Corps

Stories - Aaron Barlow
2013-05-30

Africa is a complicated place, and the Peace Corps Volunteers who have worked in 43 African nations have seen it

all: from public executions to public celebrations to life in a time of AIDS. This heartfelt collection is the first of its kind to chronicle 50 years of Peace Corps service. Stories range from poignant to hilarious, involve political intrigue and cultural missteps, illuminating the joys and agony of volunteering abroad and representing the United States in the process. Sixty stories provide a broad overview and give readers a glimpse into the life and times of these brave volunteers, who each learned at least one new language and went to work in the villages and cities from Morocco to South Africa. They worked hard, too. But in these stories you will see that they also danced, faced death by elephant, and witnessed unbearably grim events. One is admired for her "big butt," another reminded that he had taught proper police procedure in a time of civil unrest. Saying "I was there" is sometimes a bittersweet declaration.

The Walnut Trees of

"One of the key texts of Malraux's work . . . [its] pages must be counted among the most haunting in all of twentieth century literature."—Victor Brombert
"The description of the gas attack on the Russian front in 1915 will never be forgotten by anyone who has read it. . . . [Malraux] writes with the precision, the certitude and the authority of an obsessed person who knows that he has found the essence of what he has been looking for."—Conor Cruise O'Brien, from the Foreword
Malraux's greatest novel, *Man's Fate*, gave a grim, lurid picture of human suffering. [The Walnut Trees of Altenburg], written by a life-long observer of violent

upheaval and within the shadows of World War II, gives a calm, thoughtful vision of humanistic endeavor that can transcend the absurdity of existence. Mature readers will find this a rewarding visit to one of the most accomplished writers of our time."—Choice

relational understanding of modernity and cosmopolitanism that illustrates how transnational discourses of national and sexual exceptionalism operate on multiple scales in the Arab world. Moussawi's intrepid ethnography features the voices of women, gay men and genderqueers in Beirut to examine how queer individuals negotiate life in this uncertain region. He examines "al-wad'," or "the situation," to understand the practices that form these strategies and to raise questions about queer-friendly spaces in and beyond Beirut. *Disruptive Situations* also shows how LGBTQ Beirutis resist reconciliation narratives and position their identities and visibility at different times as ways of simultaneously managing their multiple positionalities and al-wad'. Moussawi argues that the daily survival strategies in Beirut are queer—and not only enacted by LGBTQ people—since Beirutis are living amidst an already queer situation of ongoing precarity.

Journey Among Brave Men -

Dana Adams Schmidt

2018-10-16

A gripping account of an award-winning journalist's journey into the heart of rebel territory during the First Iraqi-

Kurdish War. On July 4, 1962, New York Times foreign correspondent Dana Adams Schmidt left his post in Beirut to be voluntarily smuggled into Iraqi Kurdistan. It was the beginning of a nearly two-month journey that would climax in a days-long visit with the leader of the Kurdish rebellion, the most loved and feared man in Kurdistan, Mullah Mustafa Barzani. Accompanied by armed Kurdish guides and a 72-year-old Turkish interpreter, the six-foot-three-inch, seersucker-suit-clad Schmidt traveled, often at night, a secret route by foot, mule, horse and, on two occasions, jeep into the high Kurdish mountains to report on "the fightingest people in the Middle East" as no foreign journalist had done before. The physical dangers were acute—his group was strafed more than once by the Iraqi air force. Along the way, Schmidt learned about the history and culture of the Kurds, whose cause Barzani hoped Schmidt could convey to the world. Originally published in 1964

and now back in print with a new foreword by historian Charles Glass, *Journey Among Brave Men* is an enduring testament to the power of audacious journalism and to the strong will of the Kurds, an embattled people who remain in search of an independent state today. "One can only marvel at the author's indefatigable industry and power of enthusiasm, which makes him one of the most reliable of all daily paper reporters . . . **The Arabian Seas:
Biodiversity, Environmental
Challenges and
Conservation Measures** -

Laith A. Jawad 2021-03-30
The Arabian Seas Marine Region encompasses marine areas from Djibouti to Pakistan, including the northern part of Somalia, the Red Sea, the Arabian/Persian Gulf, and parts of the Arabian Sea. Human

pressures on the coastal and marine environments are evident throughout the region, and have resulted in harmful environmental effects. Oil and domestic, urban and industrial pollutants in several areas of this part of the world have caused local habitat degradation, eutrophication and algal blooms. Further, coastal landfill, dredging, and sedimentation, as well as nutrient and sediment runoff from phosphate mining, agriculture and grazing, and reduction in freshwater seepage due to groundwater extraction are all contributing to the degradation of coastal environments. This book discusses aspects not covered in other books on the region, which largely focus on marine biodiversity, and examines several environmental challenges that are often ignored, but which have a significant impact on the environment. Evaluating the status quo, it also recommends conservation measures and examines the abiotic factors that play a major main role in

the environmental changes. Lastly, the book addresses the biodiversity of the area, providing a general context for the conservation and management measures discussed.

Arabic Sociolinguistics - Reem Bassiouney 2020-04-01

In this second edition of Arabic Sociolinguistics, Reem Bassiouney expands the discussion of major theoretical approaches since the publication of the book's first edition to account for new sociolinguistic theories in Arabic contexts with up-to-date examples, data, and approaches. The second edition features revised sections on diglossia, code-switching, gender discourse, language variation, and language policy in the region while adding a chapter on critical sociolinguistics—a new framework for critiquing the scholarly practices of sociolinguistics. Bassiouney also examines the impact of politics and new media on Arabic language. Arabic Sociolinguistics continues to be

a uniquely valuable resource for understanding the theoretical framework of the language.

Applied Microbial Systematics -

F.G. Priest 2012-12-06

Modern approaches to microbial classification and identification, particularly those based on nucleic acid analysis, have raised the awareness and interest of microbiologists in systematics during the past decade. The extended scope of the subject has revolutionized microbial ecology with the demonstration of uncultivable microorganisms as a major component of the biosphere and evolution, with the ribosomal RNA phylogenetic tree as the basis of current classifications.

However, advances in microbial systematics have also had enormous impact on other, diverse aspects of microbiology such as animal pathogenicity, plant-microbe interactions and relationships with food. In this book, we survey and discuss in depth the contribution of modern taxonomic approaches to our understanding of the

microbiology of these various systems. The book does not concentrate on methods - these have been well reported elsewhere - instead it provides a unique insight into the application and value of modern systematics in diverse branches of microbiology. It will be of value to microbiologists at both research and technical levels who need to appreciate the range of organisms with which they work and the diversity within them. It will also be of value to teachers and students of microbiology courses who want to understand how systematics can enhance microbiology beyond the routine of classification, nomenclature, and identification.

Scaling Up Nutrition in the Arab Republic of Egypt -

Christopher H. Herbst

2019-11-26

Malnutrition is a huge burden on the Arab Republic of Egypt's economy.

Undernutrition—manifested by poor linear growth (stunting), wasting, and micronutrient

deficiencies in children and by anemia among women of reproductive age—collectively saps an estimated two percent of Egypt's annual gross domestic product through forgone productivity and health care costs, representing an economic hemorrhaging of billions of U.S. dollars per year. Adding to this challenge is the co-occurrence of overweight and obesity among children, leading to a malnutrition double burden. Scaling Up Nutrition in the Arab Republic of Egypt aims to inform the development of nutrition policy and guide nutrition investments over the coming years. It reviews Egypt's nutrition situation, the interventions currently in place, and the opportunities, costs, benefits, and fiscal space implications of scaling up a set of high-impact interventions to address undernutrition. The book, a collaborative effort between the World Bank and UNICEF, is targeted at all those involved in developing and implementing nutrition interventions in Egypt and

Integration Requirements for Immigrants in Europe -

Tamar de Waal 2021-06-17

Based on legal-philosophical research, and informed by insights gleaned from empirical case studies, this book sets out three central claims about integration requirements as conditions for attaining increased rights (ie family migration, permanent residency and citizenship) in Europe: (1) That the recent proliferation of these (mandatory) integration requirements is rooted in a shift towards 'individualised' conceptions of integration. (2) That this shift is counterproductive as it creates barriers to participation and inclusion for newcomers (who will most likely permanently settle); and is normatively problematic insofar as it produces status hierarchies between native-born and immigrant citizens. (3) That the remedy for this situation is a firewall that disconnects integration policy from access to rights. The book draws on

perspectives on immigrant integration in multiple EU Member States and includes legal and political reactions to the refugee/migrant crisis.

Representing Algerian Women

- Edward John Still 2019-01-14

This monograph explores the ways in which canonical Francophone Algerian authors, writing in the late-colonial period (1945-1962), namely Kateb Yacine, Mohammed Dib, Mouloud Feraoun, Mouloud Mammeri and Assia Djebar, approached the representation of Algerian women through literature. The book initially argues that a masculine domination of public fields of

representation in Algeria contributed to a postcolonial marginalization of women as public agents. However, it crucially also argues that the canonical writers of the period, who were mostly male, both textually acknowledged their inability to articulate the experiences and subjectivity of the feminine Other and deployed a remarkable variety of formal and conceptual innovations in producing evocations of Algerian femininity that subvert the structural imbalance of masculine symbolic hegemony. Though it does not shy from investigating those aspects of its corpus that produce ideologically conditioned masculinist representations, the book chiefly seeks to articulate a shared reluctance concerning representativity, a pessimism regarding the revolution's capacity to deliver change for women, and an omnipresent subversion of masculine subjectivity in its canonical texts.

The Beats in Mexico - David
Stephen Calonne 2022-04-15
Mexico features prominently in
the literature and personal
legends of the Beat writers,
from its depiction as an
extension of the American
frontier in Jack Kerouac's *On
the Road* to its role as a refuge
for writers with criminal pasts
like William S. Burroughs. Yet
the story of Beat literature and
Mexico takes us beyond the
movement's superstars to
consider the important roles
played by lesser-known female
Beat writers. The first book-
length study of why the Beats
were so fascinated by Mexico
and how they represented its
culture in their work, this
volume examines such
canonical figures as Kerouac,
Burroughs, Ginsberg,
Lamantia, McClure, and
Ferlinghetti. It also devotes
individual chapters to women
such as Margaret Randall,
Bonnie Bremser, and Joanne
Kyger, who each made Mexico

a central setting of their work
and interrogated the misogyny
they encountered in both
American and Mexican culture.
The *Beats in Mexico* not only
considers individual Beat
writers, but also places them
within a larger history of
countercultural figures, from
D.H. Lawrence to Antonin
Artaud to Jim Morrison, who
mythologized Mexico as the
land of the Aztecs and Maya,
where shamanism and
psychotropic drugs could take
you on a trip far beyond the
limits of the American
imagination.

Language Conflict in Algeria -

evolution of language planning
policies and reactions to them
in both the colonial and post-
colonial eras.
